Council Business Meeting

December 20, 2022

Agenda Item	Acceptance of Fiscal Year 2022 (Report (ACFR)	2021/2022) Annual Comprehensive Financial
From	Sabrina Cotta	Deputy City Manager/Interim Finance Director
Contact	Sarbrina.Cotta@ashland.or.us (5	41) 552-2106

SUMMARY

The City of Ashland prepares annual financial statements for review by its external auditor, Moss-Adams Assurance Services, LLP. The auditors review the City's financial reporting and internal controls according to state and national standards including those required by the State of Oregon and the Government Accounting Standards Board. The fiscal year (FY) 2022 Annual Comprehensive Financial Report (ACFR) or annual audit has received an unqualified opinion, meaning there are no material deficiencies or concerns with how the City's finances are reported.

POLICIES, PLANS & GOALS SUPPORTED

Administrative/Governance goal:

"To ensure on-going fiscal ability to provide desired and required services at an acceptable level"

PREVIOUS COUNCIL ACTION

The ACFR is presented to Council for acceptance every December.

BACKGROUND AND ADDITIONAL INFORMATION

The City of Ashland's FY2022 Annual Comprehensive Financial Report (ACFR) provides a snapshot of the City's financial condition as of June 30, 2022. The ACFR has been audited by the City's external auditor Moss-Adams Assurance Services, LLP and determined to warrant an unqualified opinion, indicating the City meets the state and national standards for financial reporting. Moss-Adams also reviews the City's internal controls for compliance with these standards and makes recommendations for improvements.

FISCAL IMPACTS

No direct impacts. Issuance of an unqualified audit opinion and assurance of the City's healthy financial condition as indicated by fund balances and retained earnings assists the City in maintaining its bond rating and financial market position.

STAFF RECOMMENDATION

That the Council accept the attached FY2022 Annual Comprehensive Financial Report.

ACTIONS, OPTIONS & POTENTIAL MOTIONS

I move to accept the City of Ashland FY2022 Annual Comprehensive Financial Report.

INTRODUCTORY SECTION

ASHLAND

December 15, 2022

RE: City of Ashland Annual Comprehensive Financial Report FY 2022

To the Citizens of the City of Ashland:

The City of Ashland is pleased to submit our Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2022. State statutes require the City of Ashland to issue an annual report on its financial position and activity, and that this report be audited by an independent firm of certified public accountants licensed by the State of Oregon to conduct municipal audits.

This report must be published within six months of the end of each fiscal year. Management holds responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures. To the best of our knowledge and belief, the enclosed data is accurate in all material aspects and is reported in a manner designed to fairly present the financial position and the results of operations of the various funds and component unit of the City of Ashland. All disclosures necessary to enable the reader to gain an understanding of the City of Ashland's activities have been included.

Based upon their audit, the independent auditor concluded that there was a reasonable basis for rendering an unmodified opinion and that the City's financial statements for the year ended June 30, 2022, are presented in conformity with Generally Accepted Accounting Principles (GAAP). The independent auditor's report is presented as the first component of the financial section of this report. It is followed by a Management Discussion and Analysis (MD&A). The reader is encouraged to review the MD&A for a better understanding of the City, its financial condition, and its activities for the year.

The financial reporting entity includes all the funds of the City of Ashland. The City provides a full range of services including police protection, fire protection, building inspection, planning services, economic development, social services, senior program, emergency medical services, electric, internet access, water, streets, storm drain, wastewater treatment, airport, cemetery, band, parks and recreation activities.

GOVERNMENTAL STRUCTURE, ECONOMIC CONDITIONS AND OUTLOOK

The City, incorporated in 1874, is located in the southwest part of the state and currently has a land area of 6.65 square miles with a population of 21,554. The City is a home-rule city and has all powers necessary or convenient for the conduct of its municipal affairs, including the power to levy a property tax on both real and personal property located within its boundaries. The City also has the power, by state statute, to extend its corporate limits by annexation within the state designated urban growth boundary, which is done periodically when deemed appropriate by the City Council.

The City operates under the council-city manager form of government. Policymaking and legislative authority are vested in the Mayor and City Council. The governing Mayor and Council are responsible for, among other things, passing ordinances, adopting the budget, appointing committees, and hiring the City Manager and the City Attorney. The City Council consists of a

ASHLAND

mayor and six-member Council. The Mayor, who presides at the Council meetings, is elected at-large for a four-year term. Six Council members are elected at-large for four-year staggered terms with three Council members elected every two years. Other elected officials are the City Recorder/Treasurer, Municipal Judge, and the five-member Parks Commission, which also serves as the Recreation Commission.

The City Manager is charged with general oversight of all operational and management functions, except for those under the Parks Commission and Recreation Commission. The City Manager is responsible for the appointment or dismissal of department heads (Fire Chief, Police Chief, Public Works Director, Community Development Director, Finance Director, Electric Director and Information Technology Director, HR Director). The Mayor, with confirmation of the City Council, appoints the City Manager, the City Attorney, and the City boards and commissions except for the Budget Committee, which, by state law is appointed by the full Council. The City Manager is responsible for carrying out the policies and ordinances of the City Council and overseeing the day-to-day operations of the City.

In addition to the help they receive from their appointed staff and employees, 20 standing advisory boards and commissions and various ad hoc committees assist the City Council which were consolidated in the beginning of FY 2023. Over 150 Ashland citizens serve on these boards and commissions and make a valuable contribution to the City of Ashland.

The City of Ashland's economic base depends primarily on higher education and tourism, with a consistently high level of small, home occupation businesses and several niche manufacturing businesses. In addition, the U.S. Fish and Wildlife National Forensics Laboratory is in Ashland. It is the only crime lab in the world dedicated entirely to wildlife and serves both the national and international communities. Ashland's downtown business district has a relatively high occupancy rate with a variety of shops, restaurants, hotels, commercial businesses, and financial institutions. The state has a major economic presence in the area in Southern Oregon University (SOU), which is located on a 175-acre campus within the city limits approximately one mile from the city center.

The tourism sector of the local economy, like most nationally, was impacted by the COVID-19 pandemic and was further impacted by persistent smoke from wildfires in the region. COVID-19 impacts will continue to be felt until federal government vaccine solutions ease the public health related regulatory constraints on the national, state, and local economy. Housing values remain strong and the Transient Lodging Tax and Food and Beverage Tax revenue impacts from COVID-19 were not as severe as initially projected and expenditure adjustments across affected Departments and programs were made to remain financially stable.

FINANCIAL INFORMATION

Management is responsible for establishing and maintaining an internal control structure designed to ensure that assets of the City are protected from loss or theft and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable assurances that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) management must use its best judgment to value the costs and benefits as it relates to cost of internal control.

The City's system of internal accounting controls is designed to provide reasonable, although not absolute, assurance regarding the safeguarding of assets against loss from unauthorized

ASHLAND

use or disposition. Annually, the City's audit by an independent audit firm includes a review of internal controls and sampling to look for fraud and review processes.

As a frequent recipient of federal, state and local financial assistance, the City must also have an adequate internal control structure in place to ensure and document compliance with applicable laws and regulations related to these programs. This internal control structure is subject to periodic evaluation by management and staff.

In addition, the City maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the biennium appropriations budget resolution adopted by the City Council. All funds are included in the biennium appropriated budget. The biennium 2021-23 budget was prepared on a fund basis with department, program, and line-item detail.

Accounting principles generally accepted in the United States of America require that management provide a discussion and analysis to accompany the financial statements. This letter of transmittal compliments management's discussion and analysis and should be read in conjunction with it. The City's Management's Discussion and Analysis can be found immediately following the independent auditors report.

Legal level of Budgetary Control. Management cannot overspend the budget without the approval of the governing body. Appropriation level is on a biennially basis for all funds. Management must request change to the appropriation level.

There are three ways in which to change appropriations after the budget is adopted.

- 1. A transfer of appropriations decreases an appropriation and increases another. This is the simplest budget change allowed under Oregon Budget Law. This does not increase the overall budget. This is approved by a City Council resolution.
- 2. A supplemental budget of less than 10 percent of total appropriations within an individual fund follows a process like the transfer of appropriations. This process includes a notice in a newspaper of record prior to Council taking action.
- A supplemental budget in excess of 10 percent of total appropriations requires a longer process. This process includes a notice in the paper and a public hearing prior to the Council taking action.

OTHER INFORMATION

Tax Limitation. Article IX of the Oregon Constitution contains various limitations of property taxes levied by local jurisdictions. The Constitution calls for taxes imposed upon property to be segregated into two categories: one to fund the public school system and community colleges and the other for local governments.

The citizens of the State of Oregon approved a property tax limitation, commonly referred to as Measure 5, in November 1991. This constitutional amendment divides property taxes into an education category and an "all other" local government category.

The education category property taxes were limited to \$15.00 per thousand of real market value (RMV) initially and have been lowered to \$5.00 per thousand. The education category includes the Education Service District, Rogue Community College, and Ashland School District 5. Specifically, the Ashland Schools tax rate is \$5.4501 (\$4.1601 - permanent rate and \$1.29 - local option operating tax).

CITY OF ASHLAND

The local government category is limited to \$10.00 per thousand. The 2021-2022 local net general government tax rate which includes Jackson County, RVTD, Jackson Soil & Water Conservation, Jackson County Library District, Vector Control, and 4-H Extension Service, in the City of Ashland was \$9.7366, and the City of Ashland's specific tax rate was \$4.2865. General obligation debt is subject to voter approval and is not subject to the \$10.00 limitation.

In November 1996, the citizens of the State of Oregon approved another property tax limitation, commonly referred to as Measure 47. Prior to enactment, this measure was repealed and replaced by Measure 50, by special election on May 20, 1997. Measure 50 changed the property tax limitation on levies, rates assessment, and equalization, after the 1996-1997 fiscal year. Measure 50 includes a reduction of property tax to previous levels and a limit on the growth in assessed valuation, which will result in a limit on a tax increase in subsequent years. Specifically, Measure 50 rolled the assessed value of each unit of property for the tax year 1997-98 back to its 1995-96 "real market value" less ten percent. The measure limited increases in assessed value in future years to three percent per year. The measure also establishes a new permanent tax rate for each taxing district. Ashland's permanent rate for the operating levies is set at \$4.2865. The measure also provides for voter approved "Local Option Levies" for levies outside the limits. No local option levies were included in the biennium budget.

Awards. The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report for fiscal year ended June 30, 2021. This was the thirty-fourth year the City had submitted and received the award. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements. This award is valid for a period of one year. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements, and we intend to submit it to the GFOA to determine its eligibility for another certificate.

In addition, the City of Ashland submitted and received the GFOA's Award for Distinguished Budget Presentation for its biennial 2021-2023 budget. To gualify for the Distinguished Budget Presentation Award, the City's budget document was judged to be proficient in several categories, including policy documentation, as an operational guide, as a financial plan, and as a communication device.

Acknowledgments. The timely preparation of the Comprehensive Annual Financial Report was made possible by the dedicated service of the entire staff of the City of Ashland Finance Department, all other departments. Each member has our sincere appreciation for the contribution made, with special thanks to the Accounting Division and Finance Administration staff for their dedicated efforts in maintaining the accounting systems, audit preparation and report writing.

Sincerely,

Joseph Lessard

FINANCIAL SECTION

Report of Independent Auditors

To the Mayor and City Council City of Ashland, Oregon

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Ashland, Oregon (the City) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (*Government Auditing Standards*), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of change in other post-employment benefits, liability and related ratios – medical benefits, schedule of proportionate share of net OPEB (asset) liability and schedule of contributions, schedule of proportionate share of net pension liability and schedule of contributions, and budgetary comparisons be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the management's discussion and analysis, schedule of change in other post-employment benefits, liability and related ratios – medical benefits, schedule of proportionate share of net OPEB (asset) liability and schedule of contributions, and schedule of proportionate share of net pension liability and schedule of contributions in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The budgetary comparison information described above is the responsibility of management and is derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (collectively, supplementary information) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Other Reporting Required by *Minimum Standards for Audits of Oregon Municipal Corporations*

In accordance with the *Minimum Standards for Audits of Oregon Municipal Corporations*, we have also issued our report dated December 15, 2022, on our consideration of the City's compliance with certain provisions of laws, regulations, contracts, and grant agreements, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-010-0000 through 162-010-0330 of the Minimum Standards for Audits of Oregon Municipal Corporations. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

Imanda Mcleany-moore

MANAGEMENT DISCUSSION AND ANALYSIS

City of Ashland (the "City") management offers this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2022 for its residents, rate payers and property owners. Please read Management's Discussion and Analysis (MD&A) in conjunction with the transmittal letter included in the introductory section of this report and the City's Financial Statements which follow.

Overview of the Report

The City's annual financial report consists of several sections that, taken together, provide a comprehensive financial look at the City. The components of the report include the following:

Management's Discussion and Analysis

This section of the report provides financial highlights and overviews.

Basic Financial Statements

Includes Statements of Net Position, Statement of Activities, Fund Financial Statements and the Notes of the Financial Statements. Statements of Net Position and Activities focus on an entity-wide presentation using the accrual basis of accounting. They are designed to be more corporate-like in that all activities are consolidated into a total for the City.

- o The Statement of Net Position focuses on resources available for future operations. In simple terms, this statement presents a snapshot view of the assets the community owns, the liabilities it owes and the net difference.
- o The Statement of Activities focuses on gross and net costs of City programs and the extent to which such programs rely upon general tax and other revenues. This statement summarizes and simplifies the user's analysis to determine the extent to which programs are self-supporting and/or subsidized by general revenues.
- Fund Financial Statements focus separately on major governmental funds and proprietary funds. Governmental fund statements follow the more traditional presentation of financial statements. The City's major governmental funds are presented in their own column and the remaining funds are combined into a column titled "Other Governmental Funds".
- o The Notes to Basic Financial Statements provide additional disclosures required by governmental accounting standards and provide information to assist the reader in understanding the City's financial condition.
- o Required Supplementary Information contains budgetary comparison statements for the major governmental fund types, presented in a Biennium format.

Supplementary Information

Readers desiring additional information can refer to the Supplementary Information section of this report. Components within this section include:

- o Major Fund Budgetary Schedules
- o Special Revenues Funds (non-major)
- o Debt Service Funds (non- major)
- o Capital Projects Fund (non-major)
- o Enterprise Funds (major)
- o Internal Service Funds
- o Schedule of Receipts, Disbursements and Balances by Elected Officials.

Statistical Section

This section includes trend information and demographics.

Audit Comments and Disclosures Required by State Regulations

This section includes supplemental communication on the City's compliance and internal controls as required by Oregon statutes and the Single Audit Act.

Financial Highlights

The following are the City's financial highlights for fiscal year ending June 30, 2022:

- Assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$149,186,700 (net position).
- The City of Ashland's total net position has increased by \$16,551,272 from the prior year. Governmental Activities of net position increased by \$11,947,788 while Business-Type Activities increased net position by \$4,603,484.
 - Government Activities increase was due to a significant decrease to the Public Employee Retirement Systems (PERS) unfunded liability this fiscal year. Proportional share of net pension liability decreased from \$37 million to \$18.8 million, over a 50% decrease from prior year. This was due to higher investment returns within the State's Retirement program.
 - Business-Type Activities increase to net position from prior year was due a decrease in Net Pension Liability as well as savings for larger capital projects. The City is anticipating construction of a new water treatment plant and has be increasing rates in anticipation of this project.
- At the close of fiscal year 2021-2022, the City's governmental funds reported combined ending fund balances of \$30,169,695, an increase of 44.5% (\$9,284,573) from the prior fiscal year of 2020-2021 which contained a 37% increase in combined ending fund balance. Changes to the City's financial management policies, including increasing the target ending fund balance, contribute to the 2021-22 increase, as well as transfers in from the consolidation of the Central Service Fund into the General Fund.

Please see the Financial Analysis below

Changes in City of Ashland's Net Position (in thousands of dollars)

Financial Analysis

Governmental Funds. As of the end of the current year the City's governmental funds had a combined ending fund balance of \$30,169,965, an increase from the prior year of \$9,284,573. Government operations, particularly in the administrative areas held vacancies open, and minimized operating expenditures during the fiscal year due to the uncertain with the COVID-19 pandemic. Revenues to the General Fund exceeded estimates especially for Property taxes and in Transient Lodging Tax. The large transfer into the General fund is consolidating the central service fund into the general fund.

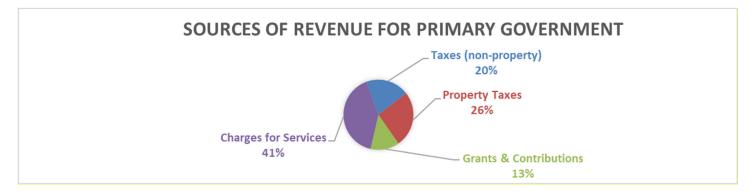

The General Fund **(pg. 92)** ended the year with expenditures lower than revenues. Revenues in this fund are primarily from taxes. One revenue source is Transient Lodging Tax, which is a tax on temporary or short-term lodging (30 days or less). This tax source significantly dropped due to COVID-19 compared to prior year activities; however, as noted above, actual receipts exceeded COVID adjusted expectations. Also note that on a GAAP basis, the Reserve Fund must roll into the General Fund the beginning of Biennium 2021-2023.

The Street Fund **(pg. 93)** ended the year with revenues ended higher than estimated. This is due to budgeted large projects, Ashland St and N Mountain Ave. These projects are in the engineering stage and will begin

construction in the second fiscal year. Construction costs are were the significant of costs accrue. The Non-Major funds are comprised of seven funds including: Housing, CDBG, Airport, Capital Improvement, Parks Capital Improvement, Debt service and Cemetery. These funds remained consistent from previous year, with a small increase by a combined balance to \$466,193, an 8 percent increase over the prior year.

The most noticeable increase in ending fund balance is the Parks Capital Improvements, this increase was due to projects put on hold due to the uncertain revenue streams of the Food and Beverage Tax.

The Reserve Fund was established by Resolution #2010-18 and updated with Resolution #2020-09 and subsequently replaced with Resolution #2020-26 as part of a comprehensive financial policies updated adopted in December 2020. This fund must be rolled into the General Fund on a GAAP basis until a stabilization policy is adopted by Council. This year's ending fund balance is \$1,715,000. This large increase was a transfer Resolution #2022-17A from the General fund of \$1,415,00 and Parks Fund of \$300,000.

Business-type Funds. The City has five enterprise funds; the Water Fund, Wastewater Fund, Stormwater Fund, Electric Fund and Telecommunications Fund. Business type funds are paid by user fees for services provided.

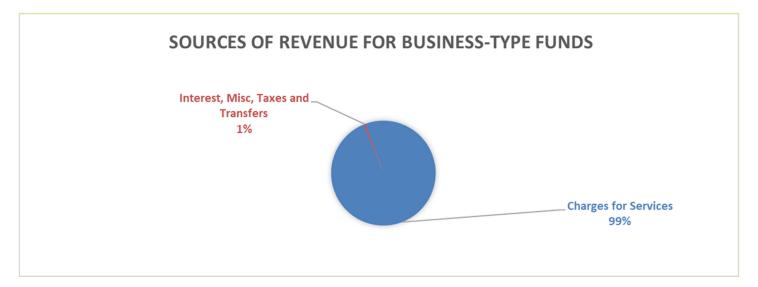

The Water Fund **(pg. 109)** ended the year with an approximate \$1.553 million excess of revenues over expenditures. The City has continued design and engineering evaluations of the \$35-\$40 million water treatment plant project based on the adopted Capital Improvement Plan. The fund balance, consistent with the approved advance funding rate methodology, is anticipated to drop significantly when used as one of several funding components of the water treatment plant project construction, which is scheduled to be substantially under way in the second year of the 2021-2023 Biennium.

The Wastewater Fund (**pg. 110**) ended the year with a \$8.336 million in fund balance. This fund as begin the \$2.9 million shading/riparian improvement project.

The Stormwater Fund (**pg. 111**) ended the year with a \$1.867 million fund balance. This fund has completed its Master plan. This fund is working with the Street fund on the North Mountain project which will begin construction in the second year of the Biennium.

Shown on page 112, the Electric Fund ended the year with revenues over expenditures of \$1,605,801. Historically and currently, the majority of Electric infrastructure improvements are covered on a cash basis. This fund anticipates the purchase and update the substation currently owned by Bonneville Power Administration (BPA) which will reduce operating costs with a reduction in billed wholesale transmission fees from BPA to the City, and provide future operational efficiencies.

The Telecommunications Fund (**pg. 113**) ended in the positive with revenues exceeding expenditures. The fund balance is at \$2.6 million. However, this fund anticipates system infrastructure updates in the near term. The City anticipates evaluating the operating structure and service delivery technology in alignment with the

debt retirement associated with the original creation of Ashland Fiber Network.

Internal Service Funds. The City has three internal service funds as of this fiscal year. Central Service which is now rolled into the General fund no longer exists, Insurance Services, Health Benefits and Equipment Funds.

The Central Service Fund was rolled into the City's General fund as part of the 2021-23 Biennium budget adoption.

The Insurance Service Fund ended the year with a positive net position \$1 million. This fund will continue to struggle with rising insurance and small claims costs in the coming years. This will impact operating departments in future years with increased charges for the rising costs.

The Health Benefits Fund ended with a fund balance of \$1,989,389. The City has returned to a pooled insurance market to help stabilize this fund. Employee contributions to monthly premium costs increased in several of the bargaining groups, moving from a 95%/5% split to a 90/10 split based on Council direction and is anticipated to extend to the remaining bargaining groups as contracts are negotiated.

The Equipment Fund ending with a fund balance of \$5,874,506. This fund will continue to fluctuate based on needed equipment to purchase across the organization and of operating expenses related to vehicle and equipment repair.

General Fund Budgetary Highlights. The City's final budget differs from the original budget in that it contains five supplemental of appropriations and two transfers during the first year of 2021-2023 Biennium approved by Council.

Below are authorized changes in the General Fund:

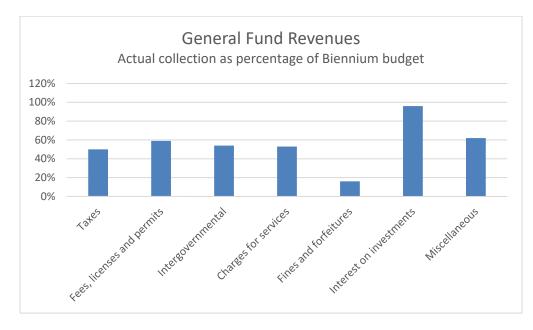

First year of the Biennium:

- Fire Department: Recognized several external grants in the amount of \$861,959.
- There were two transfers from contingency, one to the City Recorder to cover unanticipated software purchases and a transfer to Housing Trust fund.

 Resolution 2022-17A reduced various departments funding for vacancy savings and over cuts resulting in over \$1 million dollars in cuts to the general fund. This was at the request of the budget committee to reduce over all spending or to increase revenue by \$1 million dollars

The General Fund ended the first year of the Biennium budget with revenues exceeding expenditures by \$10,010,147. This amount is higher than anticipated to due revenues coming in slightly higher at 51% at year end. The larger savings are from expenditures, departments in the general fund are spending below mainly due to staff vacancy.

On March 11, 2021, President Biden signed the American Rescue Plan Act (ARPA) which directed approximately \$2.3 million to the General Fund as revenue replacement due to revenue shortfalls that were eligible for ARPA funding. This is in addition to funds received under the Coronavirus, Aid, Relief, and Economic Security (CARES) Act which reimbursed the City for direct expenditures associated with responding to the COVID-19 pandemic including police, fire, and public facilities maintenance activities.

Capital Assets and Debt Administration

 Capital Assets. As of June 30, 2022, the City had \$132 million in capital assets. In the Governmental Activities, the most notable decrease is due to lose on sale of assets from roll the Central service fund into the General fund. In the Business-type Activities, Infrastructure increased due to two projects, the shading/riparian improvements and Effluent Outfall both in the Wastewater Fund. See Note III C.

City of Ashland's Capital Assets (in thousands dollars)

Debt Administration. At end of year the City had \$19.5 million in debt outstanding. The City overall debt decreased by 8.10% from Fiscal Year 2021, The decrease was due to schedule payments, no debts were retired early during FY 2022.

The City did incur new debts of \$672,427. The Wastewater Fund drew down \$672,427 from the Department of Environmental Quality Clean Water State Revolving Fund for the riparian restoration and outfall relocation projects on Ashland's selection of Bear Creek. All other changes to debt were payments reducing the outstanding principal. For more specific data, please refer to the notes sections of Capital Assets (section C, starting on page 64) and Long-Term Debt (section E, starting on page 67)

Debt limitation. Oregon Revised Statutes provide a limit on non-self-supporting general obligation debt of 3% of the real market value of all taxable property within the City's boundaries. Based on the City's FY 2021-2022 real market value, this debt limitation is \$133,989,440. The amount of outstanding City debt subject to this limitation is \$5,835,000 (under 5% of maximum debt limitation)

Economic Factors and Next Year's Budget and Rates

- o The City of Ashland adopted its Biennium budget for 2021-2023 of \$263,949,218 in total appropriations.
- Property Taxes. This is the single largest source of revenue in the General Fund. The maximum the City is permitted to levy is approximately \$4.2865 per \$1,000 of assessed valuation. This budget levies \$4.2865 per \$1,000, with the entire levy going into the General Fund. Operating property taxes, excluding prior year tax collections, are projected to increase by 3.5% in each year

of the Biennium.

o Challenges

Our greatest assets are our employees; however, costs for personnel continue to rise faster than revenue. Funding Public Employees Retirement System (PERS) obligations has created a substantial on-going financial challenge. The previous increase of 25% in the blended rate is not offset by the milder increase expected after the market increases during the pandemic. Both the State of Oregon and the City of Ashland will monitor available options for managing the impact of pension obligations on operating budgets.

Health care, nationally, has increased by 5% annually for a number of years. The City is addressing this through labor negotiations with policy plan changes to higher deductibles and employee copays in this budget and into the future. Projected increases for the next biennium are significantly below original estimates due to statewide member pool behavior and the changes in benefits.

Staff has focused on the City Council approved goals and service level priorities. The City has achieved material reductions in costs and developed fiscal strategies for Council consideration.

- 1. Develop current and long-term budgetary resilience.
- 2. Analyze City departments/programs to gain efficiencies, reduce costs and improve services.
- 3. Enhance and improve transparency and communication.

The City of Ashland, like most communities in Oregon and beyond continues to be challenged with maintaining funding for the high service levels expected and wide array of services provided by its residents and visitors. With restrictions in property tax growth below the rate of expenditure growth and limited options for additional sources of revenue, operations have been and continue to be streamlined.

Targeted outsourcing, regionalization, and internal efficiencies where viable and cost effective continue to be a focus of the City's management team and Council. Temporary reductions in staffing levels, both actively and passively, have contributed to reducing the rate of overall expenditure increases. Slowing the pace of significant infrastructure projects has had a similar effect, primarily in the Enterprise Funds. Evaluating the City's ability and willingness to continue with these constrictions will be a significant discussion and decision point in the upcoming 2023-25 budget process

Financial Contact:

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City's Finance Department 20 East Main, Ashland, Oregon, 97520 or (541) 488-5300.

CITY OF ASHLAND, OREGON RECONCILIATION OF BALANCE SHEET OF GOVERNMENTAL FUNDS TO STATEMENT OF NET POSITION June 30, 2022

Explanation of certain differences between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position.

Fund Balances	\$ 30,169,965
The cost of capital assets (land, buildings, improvements, machinery and equipment, infrastructure, and construction in progress) is reported as an expenditure in governmental funds. The Statement of Net Position includes those capital assets among the assets of the City as a whole.	
Net capital assets Leased assets	63,094,133 61,239
Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and, accordingly, are not reported as fund liabilities. All liabilities, both current and long-term, are reported in the Statement of Net Position.	
Long-term liabilities Accrued interest on liabilities	(7,402,000) (108,986)
The net pension assets (liability), and deferred inflows and outflows related to the Net Pension Liability is the difference between the total pension liability and the assets set aside to pay benefits earned to the past and current employees and beneficiaries.	(23,386,373)
The OPEB assets (liability), and deferred inflows and outflows related to the OPEB Asset is the difference between the total OPEB liability and the assets set aside to pay benefits earned to the past and current employees and beneficiaries.	(2,050,030)
Accrued compensated absences are not due and payable in the current period and, therefore, are not reported in the funds.	
Accrued vacation and sick leave Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.	(1,409,951)
Unavailable revenue: Unavailable - Property Taxes Unavailable - Special Assessments and All others	420,365 1,443,278
Internal Service Funds are used by the City to charge costs of insurance, risk management, and fleet management services to individual funds. Their assets and liabilities are included in the Statement of Net Position.	
Internal Service Fund net position	 6,579,170
Total net position	\$ 67,410,809

CITY OF ASHLAND, OREGON RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO STATEMENT OF ACTIVITIES For the Year Ended June 30, 2022

Explanation of certain differences between the Net Changes in Fund Balance and the Government-wide Statement of Activities.

Changes in net fund balance	\$ 9,284,573
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Capital contribution Capital outlay expenditures capitalized Depreciation expense	373,321 1,884,529 (2,630,741)
The Pension Expense and the changes in the deferred inflows and outflows related to the changes in the Net Pension Assets (Liability) from year to year due to changes in total pension liability and the fair value of pension plan net position	
available to pay pension benefits.	2,263,230
The OPEB Expense and the changes in the deferred inflows and outflows related to the changes in the total OPEB Assets (Liability) from year to year due to changes in total OPEB liability and the fair value of OPEB plan net position	
available to pay benefits.	(9,076)
Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transitions that are not normally paid with expendable available financial resources. However, in the Statement of Activities (which is presented on the accrual basis of accounting) expenses and liabilities are reported, regardless of when financial resources are available. This adjustment combines the net changes in liability balances.	
General obligation bonds and notes payable Compensated absences Accrued interest	1,655,000 193,312 11,624
Revenues in the Statement of Activities that do not provide current financial recourses are not reported as revenues in the governmental funds.	
Property taxes Special assessments Other Transient lodging tax	13,800 (2,161) (100,022) 788,473
Internal Service Funds are used by the City to charge costs of insurance, risk management and fleet management services to individual funds. Their net activity is included in the statement of activities. The central Service fund rolled into the General Fund as of July 1, 2021 resulting in a one time adjustment of \$6,965,728.	
Internal Service Fund change in net position Less gain on closing central services fund	5,187,654 (6,965,728)
Change in net position	\$ 11,947,788

NOTES TO BASIC FINANCIAL STATEMENTS

CITY OF ASHLAND, JACKSON COUNTY, OREGON Notes to Basic Financial Statements

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Ashland, Oregon (the City) is a municipal corporation, governed by an elected mayor and a six-member council. The accompanying financial statements present the City, an entity for which the City is considered to be financially accountable.

B. Government-wide and Fund Financial Statements

Governmental Accounting Standards Boards Statement No. 34 (GASBS 34)

The presentation of financial information required by GASBS 34 for Basic Financial Statements and Supplementary Information are described below and in the Management's Discussion and Analysis located earlier in this document. The government-wide financial statements (i.e. the Statement of Net Position and the Statement of Changes in Activities) report information on the activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely, to a significant extent, on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds financial statements. Revenues are recorded when earned and expenses are reported when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. The budgetary basis of accounting is the same as Generally Accepted Accounting Principles (GAAP). Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the period or soon enough thereafter to pay liabilities of the current period.

For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when the payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are accruable and so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

- The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The Street Fund accounts for the resources and operating expenditures related to the maintenance, operation and construction of the City's streets and storm water collection infrastructure. While a substantial portion of revenues come from user fees, the primary source is state-shared highway funds.

The City reports the following major proprietary funds:

- The Water Fund accounts for the resources and expenses related to supply, treatment and distribution of water throughout the City. The primary source of revenue is user fees.
- The Wastewater Fund accounts for the resources and expenses related to collection and treatment of wastewater throughout the City. The primary source of revenue is user fees.
- The Stormwater Fund accounts for the resources and expenses related to collection and treatment of stormwater throughout the City. The primary source of revenue is user fees.
- The Electric Fund accounts for the resources and expenses related to distribution of electricity throughout the City. The primary source of revenue is user fees.
- The Telecommunications Fund accounts for the resources and expenses related to broadband and high-speed data transmission services throughout the City. The primary source of revenue is user fees.

Additionally, the City reports the following fund types:

 Internal Service Funds account for insurances and fleet management services primarily provided to other departments or agencies of the City, or to other governments, on a cost reimbursement basis.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are payment-in-lieu of taxes and other charges between the City's various utility funds and the other functions of the City. The enterprise funds which operate water, wastewater, and electric services are charged franchise fees by the General Fund. As such franchise fees would be charged to any such operation under local ordinance, these fees are recognized as direct operating expenses in those funds and as revenue to the General Fund rather than transfers. Payments for Fiscal year 2022 includes \$682,933 by the Water Fund, \$506,931 by the Wastewater Fund, and \$1,772,345 by the Electric Fund. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses result from providing, producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The enterprise and internal service funds are charges to customers for sales and services.

Where applicable, enterprises also recognize the portion of System Development Charges intended to recover the cost of connecting new customers to the system as operating revenue. Operating expenses for enterprise and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources to the limits of the policies and statutes governing them first, then unrestricted resources as they are needed.

D. Assets, Liabilities and Net Position

1. Cash and Investments

The City's cash and cash equivalents are comprised of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and the State Treasurer's Investment Pool.

Investments for the City are reported at fair value. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of pool shares.

2. Restricted Cash

The balances of the restricted assets accounts in the governmental and business-type are as follows:

	-	General vernment
Restricted Cash: Cemetery Trust Fund	\$	929,433
	\$	929,433

3. Receivables and Payables

Activity between funds that are representative of lending and borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to\from other funds." Any residual balances outstanding between the governmental and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not expendable available financial resources.

All trade and property taxes receivable are shown at net of an allowance for uncollectibles. Trade accounts receivable in excess of 120 days comprise the trade accounts receivable allowance for uncollectibles.

Property taxes are levied as of July 1 on property assessed as of the same date. The tax levy is due November 15, with an optional payment method of 1/3 due November 15, 1/3 due January 15, and 1/3 due March 15. Taxes paid in full November 15 are provided a 3 percent discount. The billings are considered delinquent after the appropriate due date, at which time the applicable property is subject to lien, and penalties and interest are assessed.

Notes and contracts receivable are recorded at par. Interest assessed is recorded as revenue when the payment becomes due.

4. Inventories

All inventories are stated at moving average cost. Inventories are recorded as expenditures when consumed rather than when purchased.

5. **Prepaid items and Advances**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements using the consumption method.

6. **Restricted Assets**

Certain proceeds of the water enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the Statement of Net Position because they are maintained in separate bank accounts (not in the City's control) and their use is limited by applicable bond covenants.

7. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure (e.g. streets, roads, bridges, sidewalks and similar public domain items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined in the City's capitalization policy (dated 2010) as having a historic cost or market value in excess of \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed.

Donated assets, donated works of art and similar items, and capital assets received in a service concession arrangement will be reported at acquisition value at the date of the donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

The City of Ashland amended the capitalization policy to meet Governmental Accounting Standards Board Statement (GASBS) No. 51 requirements. GASBS 51 relates to recognizing intangible assets as easements, water rights, timber rights, patents, trademarks and computer software.

The policy update states that any asset that is internal development will be capitalized if the actual or estimated cost is \$25,000 or more. The useful life of the assets will be determined by the developing department, the Finance Department and the City Manager.

Property, plant and equipment of the primary government is depreciated using the straight-line method over the following estimated useful lives of the related assets:

33 to 50 years
40 to 70 years
15 to 50 years
15 to 25 years
2 to 20 years

8. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Since the City does not have a policy to pay any amounts when employees separate from service with the City, there is no liability for unpaid accumulated sick leave. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, or are taken and paid from current resources.

9. Long-Term Liabilities

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position.

Bond premiums and discounts are deferred and amortized over the life of the bond using the effective interest method. Bonds payable are reported net of the applicable bonding premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

10. Net Position/Fund Balance

In governmental fund types, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called "fund balance." The City's governmental funds report the following categories of fund balance, based on the nature of any limitations requiring the use of resources for specific purposes.

<u>Non-spendable fund balance</u> represents amounts that are not in a spendable form. The non-spendable fund balance represents perpetual care.

<u>Restricted fund balance</u> represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).

<u>Committed fund balance</u> represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by City Council resolution.

<u>Assigned fund balance</u> represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body or by an official to whom that authority has been given by the governing body. Currently, management does not have authority to assign fund balance.

<u>Unassigned fund balance</u> is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

The governing body has approved the following order of spending regarding fund balance categories: restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is: committed (if applicable), assigned (if applicable) and unassigned.

To preserve a sound financial system and to provide a stable financial base, the governing body has adopted a minimum fund balance policy. Financial Management Policies were approved December 2020. The targets for fund balances are generally a function of estimated average annual expenditures of the prior three years and are intended to help maintain financial viability of each fund. They vary based on how susceptible a fund is to revenue fluctuations and based on the riskiness of the activities in each different fund.

11. Deferred Outflows/Inflow of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflow of resources. This separate financial statement element represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

12. Fair Value Inputs and Methodologies and Hierarchy

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Observable inputs are developed based on market data obtained from sources independent of the reporting entity.

Unobservable inputs are developed based on the best information available about the assumptions market participants would use in pricing the asset. The classification of securities within the fair value hierarchy is based upon the activity level in the market for the security type and the inputs used to determine their fair value, as follows:

Level 1 – unadjusted price quotations in active markets/exchanges for identical assets or liabilities that each Fund has the ability to access

Level 2 – other observable inputs (including, but not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, loss severities, credit risks and default rates) or other market– corroborated inputs)

Level 3 – unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including each Fund's own assumptions used in determining the fair value of investments)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the fair value hierarchy classification is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

13. Leases

The City recognizes lease contracts or equivalents that have a term exceeding one year and the cumulative future receipts on the contract exceed \$25,000 that meet the definition of an other than short-term lease. The City uses the same interest rate it charges to lessee as the discount rate or that is implicit in the contract to the lessee. Short-term lease receipts and variable lease receipts not included in the measurement of the lease receivable are recognized as income when earned.

The City recognizes lease contracts or equivalents that have a term exceeding one year and the cumulative future payments on the contract exceed \$25,000 that meet the definition of an other than short-term lease. The City uses a discount rate that is explicitly stated or implicit in the contract. When a readily determinable discount rate is not available, the discount rate is determined using the City's incremental borrowing rate at start of the lease for a similar asset type and term length to the contract. Short-term lease payments are expensed when incurred.

14. New Accounting Pronouncement

Adoption of GASB 87

The City of Ashland GASB No. 87 Leases (GASB 87) as of July 1, 2021. The City evaluated contracts that were formerly accounted for as operating leases to determine whether they meet the definition of a lease as defined in GASB 87. The contracts related to the lease of their building meet the definition of a lease and the City calculated and recognized a lease receivable of \$529,488 and deferred inflows of resources \$529,488 as of July 1, 2021. The beginning net position was not restated for the adoption of GASB 87.

The City GASB No. 87 Leases (GASB 87) as of July 1, 2021. The City of Ashland evaluated contracts that were formerly accounted for as operating leases to determine whether they meet the definition of a lease as defined in GASB 87. The contracts to lease office space and equipment met the definition of a lease and the City calculated and recognized a right-to-use assets of \$63,410 and lease liabilities \$63,410 as of July 1, 2021. The beginning net position was not restated for the adoption of GASB 87.

GASB Statement No. 89, Accounting for Interest Costs Incurred Before the End of a Construction Period. This statement was issued June 2018 and establishes accounting requirements for interest cost incurred before the end of a construction period. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. 30, 2022 and resulted in a change in policy.

The City implemented GASB Statement No. 97 – Certain Component Unit Criteria, and Accounting and Financial reporting for Internal Revenue Code Section 457 Deferred Compensation Plans which did not have an impact to the financial statements of the City.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

The City has adopted a biennial budget for all funds on a basis consistent with generally accepted accounting principles for governmental funds. The City Council resolution adopting the budget and authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations.

Appropriations are at the department (organizational unit) level for funds with more than one department and by total personal services, materials and services, capital outlay, debt service, transfers, and contingency for those funds with only one department or function. The detail budget document, however, is required to contain more specific, detailed information for the above-mentioned expenditure categories. The City budgets debt service principal and interest on a cash basis, it is reported on the statement of changes in revenues, expenses and changes in position.

Unexpected additional resources may be added to the budget through the use of a supplemental budget. The supplemental budget process requires hearings before the public, publications in newspapers, and approval by the City Council. Original and supplemental budgets may be modified only by the City Council through the use of appropriation transfers between the levels of control. In addition, Oregon Local Budget Law provides certain specific exceptions to the supplemental budget process to increase appropriations. Such transfers and increases require approval by the City Council by adoption of a resolution. Budget appropriation amounts shown in the financial statements include the original and revised budget period of 2021-2023; therefore, all spending authority of the City lapses at the end of the biennial period.

• In Fiscal year 2021-2022, the City made seven appropriation adjustments. All seven were amended by resolutions (Resolution # 2022-01, 2022-02, 2022-03, 2022-07, 2022-10, 2022-17 & 2022-17A).

Expenditures of the various funds were within authorized appropriations for the year ended June 30, 2022.

Deficit fund equity:

Generally accepted accounting principles and Oregon state law requires fund disclosure of deficit fund balance/total net position. On June 30, 2022 no funds reported a deficit net position in the GAAP basis financial statements.

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

	otal Primary overnment
Petty cash	\$ 4,590
Deposits with financial institutions	2,054,006
Imprest Cash	120,000
Investments	62,329,251
	\$ 64,507,847
Governmental - unrestricted Governmental - restricted:	\$ 63,578,414
Cemetery Trust Fund	929,433
	\$ 64,507,847

1. Deposits

Deposits with financial institutions include bank demand deposits. Oregon Revised Statutes require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury.

2. Credit Risk Deposits

There is a risk that, in the event of a bank failure, the City's deposits may not be returned. The City's deposit policy is in accordance with ORS 295. All deposits are collateralized with eligible securities in amounts determined by the Oregon State Treasury (OST). The OST's custodian, Federal Home Loan Bank of Des Moines, is the agent of the depository bank. The securities pledged are designated as subject to the Pledge Agreement between the Depository Bank, Custodian Bank and OST and are held for the benefit of the OST on behalf of the public depositors. The City's deposit policy requires that all deposits are covered by the Federal Deposit Insurance Corporation (FDIC), and/or are collateralized as required by and in compliance with ORS 295. The FDIC's standard insurance amount is \$250,000 per depositor, per insured bank, for each account ownership category.

3. Investments

Policies officially adopted by the City's board allows the entity to invest in: U.S. Treasury Obligations (bills, notes and bonds), U.S. Government Agency Securities and Instrumentalities of Government Sponsored Corporations, Banker's Acceptances, Certificates of Deposit (at commercial banks that have a branch in Oregon and Savings & Loan Associations that have a branch in Oregon), State and Local Government Securities, Commercial Paper (A1, AA, P1), State of Oregon Investment Pool, and Repurchase Transactions.

Cash and Investment Note

Investments in the Local Government Investment Pool (LGIP) are included in the Oregon Short-Term Fund, which is an external investment pool that is not a 2a-7-like external investment pool, and is not registered with the U.S. Securities and Exchange Commission as an investment company. Fair value of the LGIP is calculated at the same value as the number of pool shares owned. The unit of account is each share held, and the value of the position would be the fair value of the pool's share price multiplied by the number of shares held.

Investments in the Short-Term Fund are governed by ORS 294.135, Oregon Investment Council, and portfolio guidelines issued by the Oregon Short-Term Fund Board, which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The fund appears to be in compliance with all portfolio guidelines at June 30, 2022. The LGIP seeks to exchange shares at \$1.00 per share; an investment in the LGIP is neither insured nor guaranteed by the FDIC or any other government agency. Although the LGIP seeks to maintain the value of share investments at \$1.00 per share, it is possible to lose money by investing in the pool. These investments. These investments are characterized as a level 2 fair value measurement in the Oregon Short Term Fund's audited financial report. As of June 30, 2022, the fair value of the position in the LGIP is 98.98% of the value of the pool shares as reported in the Oregon Short Term Fund audited financial statements. Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized.

As of June 30, 2022, the fair value measurement at the measurement date, the City had the following investments and maturities:

			Investment Maturities (in months)					5)
Investment Type		Fair Value		Less than 3		17	18	-59
U.S. Treasury Bill State Treasurer's	\$	15,968,947	\$	15,968,947	\$	-	\$	-
investment pool		46,360,304		46,360,304		-		-
	\$	62,329,251	\$	62,329,251	\$	-	\$	-

Interest Rate Risk

As a means of limiting its exposure to fair value losses resulting from rising interest rates, the City's investment policy allows only the purchase of investments that can be held to maturity. Investments cannot be made predicated upon selling the security prior to maturity.

Oregon Revised Statutes require that investments do not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB. The City limits investment maturities as follows:

1.	Under 30 days	10% minimum
2.	Under 90 days	25% minimum
3.	Under 270 days	50% minimum
4.	Under 1 year	75% minimum
5.	Under 18 months	80% minimum
6.	Under 3 years	100% minimum

Credit Risk

Neither the Oregon Revised Statutes nor the City's investment policy limits investments as to credit rating for securities purchased from U.S. Government Agencies. The City's investments in U.S. Government Agencies were rated AA+ by Standard & Poor's and AA+ by Moody's Investor Service. The state pool is unrated. Oregon Revised Statutes require Banker's Acceptances to be guaranteed by and carried on the books of, a qualified financial institution, eligible for discount by the Federal Reserve System, and issued by a qualified financial institution whose short-term letter of credit rating is rated in the highest category by one or more nationally recognized statistical rating organizations.

Concentration of Credit Risk

To avoid incurring unreasonable risks inherent to over-investing in specific instruments or in individual financial institutions, the City's investment policy sets maximum limits on the percentage of the portfolio that can be invested in any one type of security. At June 30, 2022 the City was in compliance with all percentage restrictions.

Oregon Revised Statutes require that no more than 25 percent of the monies of local government to be invested in Bankers Acceptances of any singular qualified financial institution. Amounts in the State Treasurer's LGIP are not required by law to be collateralized.

No more than the stated percentage of the overall portfolio will be invested in each of the following categories of securities:

U.S. Treasury Obligations U.S. Government Agency Securities and	100%
U	1000/
Instrumentalities of Government Sponsored Corp.	100%
Bankers' Acceptances	50%
Certificates of Deposit	35%
State and Local Government Securities	35%
Repurchase Transactions	25%
Commercial Paper (AA, A1, P1)	10%
State of Oregon Investment Pool Securities	100%

B. Receivables

As of year-end, receivables for the government's individual major funds and non-major, internal service in aggregate, including the applicable allowances for uncollectable accounts, are as follows:

		Balance
Governmental Activities:		
Current:		
Property Tax	\$	432,757
Business Licenses		62,685
Ambulance billing		767,263
Utility Receivables		965,229
Misc. Receivables		1,789,590

Conservation loans		88,951
Total Long - Term		88,951
č		
Total	\$	3,753,119
Accounts, Net	\$	11,850,874

Governmental funds report unearned and unavailable revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of unavailable revenue and unearned revenue reported in all funds were as follows:

2022 Notes to Basic Financial Statements

Governmental Activities:	General Fund	Street Fund	Other Governmental Funds	Total Governmental Funds
Property Taxes	398,405	-	21,960	420,365
Leases	-	-	529,448	529,448

Total capital assets being depreciated, net Business-type activities capital assets, net	55,699,483 \$ 65,211,991	(2,203,272) \$ (408,626)	- \$ 188,393	53,496,211 \$ 64,614,972

Depreciation expense for the governmental activities as charged to functions/programs of the primary government is as follows:

General government Public safety	\$ 1,100,333 180,770
Highways and streets Parks and Rec	 1,286,009 1,081,753
Total	\$ 3,648,865

Depreciation expense for the business type activities as charged to functions/programs of the primary government is as follows:

Water Fund	\$ 709,904
Wastewater Fund	1,256,263
Stormwater Fund	55,812
Electric Fund	308,349
Telecommunication Fund	 61,337
Total	\$ 2,391,665

Construction Commitments

The government has active construction projects as of June 30, 2022. The projects include construction of various infrastructure improvements and additions to the transportation, storm water, water, wastewater and telecommunications systems. The City has remaining commitments under construction contracts of approximately \$10,271,175 at June 30, 2022.

D. Interfund Receivable, Payable and Transfers

The internal transfers are budgeted and recorded to show legal and operational commitments between funds such as cost sharing or debt service. Interfund loans are used to assure adequate fund balances in funds where operations do not currently (on a short term basis) generate enough support through revenues.

The composition of interfund balances as of June 30, 2022, is as follows:

		 ansfer to Imental Funds	5	
Tranfer From	 eneral Fund	lonmajor venrmental		Total
Governmental Funds:		 venimentai		Total
General fund	\$ 9,167,928	\$ 200,500	\$	9,368,428
NonMajor Funds	54,879	299,172		354,051
Central Service Fund	3,087,206	-		3,087,206
Business-type Activities:				
Water Fund	50,000	-		50,000
Total	\$ 12,360,013	\$ 499,672	\$	12,859,685

The large transfer from Central Service Fund is due to consolidating the central service fund into the General fund as of July 1, 2022. The cost of administrative support, previously provided by the Central Services Fund is now within the General Fund.

E. Long-term Debt

1. Unbonded Long-term Debt (Notes and Contracts)

The government has three promissory note agreements for financing:

- Garfield Park In 2016 the City borrowed \$870,000 for upgrade for the water park within Garfield Park. The debt is funded by park's share of food and beverage tax.
- Biscoe School In 2018 the City agreed to purchase Biscoe School from the Ashland School District for \$1,540,000 at zero percent interest. The debt is paid by lease agreement.
- Biscoe Park In 2018 the City agreed to purchase Biscoe Park from the Ashland School District for \$500,000 at zero percent interest. The debt is paid by park's share of food and beverage tax.

Promissory notes outstanding at year end are as follows:

Purpose	Activity	Original Amount	Interest Rates	Amount Outstanding			
Upgrade to Garfield Water Park	Government	\$ 870,000	2.12%	\$	327,000		
Purchase of Briscoe School Building	Government	1,540,000	-		990,000		
Purchase of Briscoe School Yard	Government	500,000	-		250,000		
				\$	1,567,000		

Promissory note debt service requirement to maturity is as follows:

Year ending	Governmental Activities									
June 30,	Principal Interest									
2023	\$	251,000	\$	6,455						
2024		253,000		4,516						
2025		255,000		2,533						
2026		208,000		509						
2027		160,000		-						
2028-2032		440,000		-						
	\$	1,567,000	\$	14,013						

2. General Obligation Bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities over the previous fiscal years. No new debt was issued in the category of General Obligation Bonds.

The following schedule shows the debt service requirements for GO bonds as of June 30, 2022:

Purpose	Activity	Original Amount	Interest Rates	Amount utstanding
2011 Fire station	Government activities	\$ 2,960,000	2.0-4.00%	 1,535,000
2013 AFN Debt	Government activities	11,675,000	2-2.8%	3,635,000
2013 GO Bonds New Construction	Government activities	1,520,000	2-2.5%	665,000
2013 Water Debt GO Bonds	Business-type activities	1,580,000	2.00%	185,000
2013 GO Bonds New Construction	Business-type activities	3,245,000	2-2.5%	1,420,000
				\$ 7,440,000

Government Activities:

- The citizens of Ashland authorized by vote in May 2011 for the construction of Fire Station #2. This debt is being paid by property tax.
- In 2013, a new issue for AFN Debt as Full Faith and credit bonds was a result of refinancing a previous debt for AFN. The previous debt was at 5.33% to 2.80% interest. This debt is paid by rates.
- In 2013 a new debt of \$ 4,765,000 as Full Faith and credit bonds was issued for 15 years, this debt was split between Governmental and Business-type activities. The Street Fund & Parks operations received \$1,520,000 of the total. This debt is paid by user fees.

Business-Type Activities:

- In 2013, the City refunded a portion of the 2003 Water Revenue Bonds in the amount of \$1,580,000. The refund resulted in \$162,000 gross savings, equivalent to \$151,000 in net present value. This debt is paid by user fees.
- In 2013, a new debt of \$ 4,765,000 as Full Faith and credit bonds was issued for 15 years, this debt was split between Governmental and Business-type activities. The purpose of this for these bonds are projects in the Street & Parks (\$1,520,000) and Water, Wastewater and Stormwater Funds (\$3,245,000). This debt is paid by user fees.

Year Ending	201	1 GO Bond	ls Fire	Station #2	2013 AI	-N Deb	t	2013 Water Debt GO Bonds

DEQ R11755 - Wastewater	Business-type activities		1.00%	913,360
				\$10.498.765

- Clean Renewable Energy Bonds (CREBS), authorized by U.S. Treasury, is fore construction of a renewable resource photovoltaic system to generate "green power" for the city's electrical system. Electric rate revenue is pledged to pay the related debt service. This debt was paid off as of June 30, 2022.
- IFA #S14005 is complete as of this fiscal year, this loan was for three projects; Talent-Ashland-Phoenix water intertie system (TAP), Terrace St Pump Station and Park Estates Pump Station. This loan received \$950,000 in principal forgiveness. Water revenue was pledged.
- The DEQ #R11751 loan is for the wastewater treatment plant for the membrane system upgrade in the amount of \$1,645,280. This project is complete and the City is now paying on this loan.
- The Medford Water Commission loan is for the City's portion of receiving services for TAP. This is being
 paid by SDC's Revenue.

- IFA #S16021 is for the new water treatment plant. There were no drawdowns for this fiscal year leaving • the loan to \$2,549,591. No payments will be made until the project is complete. This loan is for a total of \$14,811,865 with \$1,030,000 in principal forgiveness.
- DEQ #R11754 is for the Riparian Restoration project. This loan is for a total of \$4,829,000. To date, • \$855,305 has been received as a drawdown.
- DEQ #R11755 is for the Outfall Relocation project. This loan is for a total of \$3,500,000. To date, • \$913,360 has been received as a drawdown.

The City of Ashland has signed agreements in the amount of \$22,110,865 as June 30, 2022. Of that amount, the City drew down a total of \$672,428.

Purpose	Activity	Signed Agreements	Ju	Balance ine 30, 2021	Dr	awdowns	Reclass	Ju	Balance ne 30, 2022

Total bonds payable		12,168,821	672,427		737,483	 12,103,765	731,489
Business-type Activities:							
Long-term liabilities	\$	12,168,821	\$ 672,427	\$	737,483	\$ 12,103,765	\$ 731,489

Long-term liability activity for the year ended June 30, 2022, was as follows:

The Due within one year balance are net of premiums and discounts.

F. Compensated Absences

Internal service funds predominantly serve governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At year end, \$23,046 of the Internal Service Fund was compensated absences.

The General Fund is typically used to liquidate the compensated absences for governmental funds. The balances of the compensated absences in accounts payable in the governmental and business-type are as follows:

	Beginning Balance	Additions Reductions					Ending Balance	Due within a Year		
Governmental Activities: Business-type Activities:	\$ 1,628,411 465,919	\$	1,224 7,235	\$	196,634 58,955	\$	1,433,001 414,199	\$	358,250 103,550	
Total compensated absences payable	\$ 2,094,330	\$	8,459	\$	255,589	\$	1,847,200	\$	461,800	

IV. OTHER INFORMATION

A. Risk Management

The government is exposed to various risks of loss related to: torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; workers' compensation; and post retirement benefits for which the government is self-insured to defined levels. The government has established limited risk management programs for liability and workers' compensation.

The government purchases re-insurance above defined loss levels in each program. Premiums are paid into the Insurance Services internal service fund by all other funds, component units, and potential component units, and are available to pay claims, claim reserves, and administrative costs of the programs. These interfund and agency premiums are used to offset the amount of claims expenditures reported. As of June 30, 2022, such premiums did not exceed paid claims and reserves.

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, change in legal doctrines, and damage awards.

Accordingly, claims are re-evaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs), and other economic and social factors. Liability claims have a seven year statute of limitations and open claims, not in litigation, are frozen. An excess insurance policy covers claims after an aggregate annual settlement of \$50,000.

The City has not had significant reductions in insurance coverage from prior years.

Settlements have not exceeded coverages in each of the last three fiscal years. Workers' compensation claims are carried and reviewed from the date of self-insurance, July 1, 1989. An excess insurance policy covers individual claims in excess of \$300,000. Changes in the balances of claims liability during the past two years are as follows:

Year Ended	Balance Beginning	Current-Year Claims and	Claim	Balance at
June 30	of Year	Changes Estimates	Payments	End of Year
2022	160,093	62,429	62,429	160,093
2021	160,093	57,454	57,454	160,093

B. Other Post Employment Benefits – Insurance Subsidy

The City's collective OPEB related assets, deferred outflows of resources, liabilities, deferred inflows of resources, and expenses for the year ended June 30, 2022 for all OPEB plans are as follows:

		PERS	
	City Plan	Rhia	Total
Net OPEB asset	-	684,250	684,250
Subtotal of deferred outflows of Resources	1,197,217	46,130	1,243,347 -
NET OPEB liability	4,045,104	-	4,045,104
Subtotal of deferred inflows	351,366	297,179	648,545
OPEP expense (income)	851,798	433,201	1,284,999

The post employment Health Insurance Subsidy is administrated by the City of Ashland. The City has elected to use the project Unit Credit cost method.

<u>Plan Description</u> – The City operates a single-employer retiree benefit plan that provides post employment health, dental, vision and life insurance benefits to eligible employees and their spouses. There are active and retired members in the plan. Benefits and eligibility for members are established through the collective bargaining agreements. The City's post-retirement healthcare plan was established in accordance with Oregon Revised Statutes (ORS) 243.303. ORS stipulated that for the purpose of establishing healthcare premiums, the rate must be based on all plan members, including both active employees and retirees.

The difference between retiree claims cost (which is generally higher in comparison to all plan members because of the effect of age) and the amount of retiree healthcare premiums represents the City's implicit employer contribution.

The City did not establish an irrevocable trust (or equivalent arrangement) to account for the plan.

<u>Funding Policy</u> – The benefits from this program are paid by the retired employees on a self-pay basis and the required contribution is based on projected pay-as-you go financing requirements. There is no obligation on the part of the City to fund these benefits in advance.

<u>Annual OPEB Cost and Total OPEB Liability</u> – The City's annual Other Post Employment Benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer and an amount actuarially determined in accordance within the parameters of GASBS 75. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

<u>Actuarial Methods and Assumptions</u> – The ARC for the current year was determined as part of the July 1, 2020 actuarial valuation, using the present value of projected benefits discounted at the valuation interest rate (2.16 percent). The assumed health costs will increase 4 percent in the first year (July 1, 2020, premiums compared with July 1, 2019, premiums), In future years, the medical and vision cost trend assumes increase of 4%. The demographic assumptions, such as mortality rates, disability incidence rates, retirement rates and withdrawal rates, are the same as those used by Oregon PERS for cities.

Changes in total Net OPEB Liability/(Asset):

	2022
Total OPEB Liability/(Assets), beginning of year	\$ 4,051,051
Changes for the year:	
Service Cost	168,578
Interest	90,131

Retirement Health Insurance Account

Plan Description:

As a member of Oregon Public Employees Retirement System (OPERS) the City contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by OPERS. RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004. OPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Oregon Public Employees Retirement System, PO Box 23700, Tigard, OR 97281-3700.

Funding Policy:

Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in OPERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in OPERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in an OPERS-sponsored health plan. A surviving spouse or dependent of a deceased OPERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from OPERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Participating cities are contractually required to contribute to RHIA at a rate assessed each year by OPERS, and the City currently contributes 0.05 of annual covered OPERS payroll and nothing for OPSRP payroll under a contractual requirement in effect until June 30, 2022. The OPERS Board of Trustees sets the employer contribution rates based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 74. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The City's contributions to RHIA for the years ended June 30, 2022 was \$3,554 respectively, which equaled the required contributions each year.

	Deferred Outflow of Resources		Deferred Inflow of Resources

C. Employee Retirement System and Pension Plan

<u>Plan Description</u> – The Oregon Public Employees Retirement System (PERS) consists of a single costsharing multiple-employer defined benefit plan. All benefits of the system are established by the legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Oregon PERS produces an independently audited Annual Comprehensive Financial Report which can be found at <u>https://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-information.aspx</u>

- a. **PERS Pension (Chapter 238)**. The ORS Chapter 238 Defined Benefit Plan is closed to new members hired on or after August 29, 2003.
 - i. **Pension Benefits**. The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, and 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefits results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer (age 45 for police and fire members). General service employees may retire after reaching age 55. Police and fire members are eligible after reaching age 50. Tier 1 general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service.

Police and fire member benefits are reduced if retirement occurs prior to age 55 with fewer than 25 years of service. Tier 2 members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

- ii. **Death Benefits**. Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided on or more of the following contributions are met:
 - member was employed by PERS employer at the time of death,
 - member died within 120 days after termination of PERS covered employment,
 - member died as a result of injury sustained while employed in a PERS-covered job, or
 - member was on an official leave of absence from a PERS-covered job at the time of death.
- iii. Disability Benefits. A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.
- iv. Benefit Changes After Retirement. Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value equity investments. Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA will vary based on the amount of the annual benefit.
- b. **OPSRP Pension Program (OPSRP DB)**. The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.
 - i. **Pension Benefits**. This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

Police and fire: 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.

General service: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

- ii. **Death Benefits**. Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.
- iii. Disability Benefits. A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

iv. **Benefit Changes After Retirement**. Under ORS 238A.210 monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA will vary based on the amount of the annual benefit.

Contributions – PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. The funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans. Employer contribution rates during the period were based on the December 31, 2019 actuarial valuation, which became effective July 1, 2021. The state of Oregon and certain schools, community colleges, and political subdivision have made unfunded actuarial liability payments and their rates have been reduced. Employer contributions for the year ended June 30, 2022 were \$4,468,191, excluding amounts to fund employer specific liabilities. In addition, approximately \$1,104,094 in employee contributions were paid or picked up by the City in fiscal 2022. At June 30, 2022, the City reported a net pension liability of \$24,510,198 for its proportionate share of the net pension liability. The pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation dated December 31, 2019. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. As of the measurement date of June 30, 2021, the City's proportion was .21 percent. Pension expense for the year ended June 30, 2022 was \$3,051,127.

The rates in effect for the year ended June 30, 2022 were:

1) Tier 1/Tier 2 – 25.06%

2) OPSRP general services – 21.20%

3) Tier 1/Tier 2 Police and Fire – 30.94%

4) OPSRP Police and Fire - 25.56%

	Deferred Outflow of Resources	Deferred Inflow of Resources
Difference between expected and actual experience Changes in assumptions Net difference between projected and actual	\$ 2,294,315 6,135,640	\$- 64,505

(2,813,610)
(4,650,366)
447,916
-
\$ (10,855,957)

<u>Actuarial Valuations</u> – The employer contribution rates effective July 1, 2021 through June 30, 2023, were set using the entry age normal actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (estimated amount necessary to finance benefits earned by employees during the current service year), (2) an amount for the amortization unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an actuarially determined amount for funding a disability benefit component, and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

Valuation date Measurement date Experience Study Actuarial cost method Actuarial assumptions:	December 31, 2019 June 30, 2021 2018, published July 26, 2017 Entry age normal

Morality	Healthy retirees and beneficiaries: RP-2014 Healthy annuitant, sex-distinct, generational with Unisex, Social Security Data Scale, with collar adjustments and set-backs as described in the valuation.							
	Active Member: RP-2014 Employees, sex-distinct, generational with Unisex, Social Security Data Scale, with collar adjustments and set-backs as described in the valuation.							
	Disable retirees: RP-2014 Disabled Retirees, sex-distinct, generation with Unisex, Social Security Data Scale.							

Actuarial Methods and Assumptions:

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years.

The method and assumptions shown are based on the 2018 Experience Study which is reviewed for the four-year period ending December 31, 2018.

Asset Class/Strategy	Low Range	High Range	OIC Target
Cash	0.0%	3.0%	0.0%
Debt Securities	15.0%	25.0%	20.0%

Private Equity	14.0%	21.0%	17.5%
Alternative Equity	0.0%	12.5%	12.5%
Opportunity Portfolio	0.0%	3.0%	0.0%
Total		-	100%

Long-Term Expected Rate of Return:

To develop an analytical basis for the selection of the long-term expected rate of return assumption, the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

Long-Term Expected Rate of Return ¹			20-Year		
	Target	Annual Arithmetic	Annuallized Geometric	Annual Standard	
Asset Class	Allocation	Return ²	Mean	Deviation	
Global Equity	30.62 %	7.11 %	5.85 %	17.05 %

Hedge Fund of Funds - Multistrategy	1.25	5.42	5.11	8.45	
Hedge Fund Equity - Hedge	0.63	5.85	5.31	11.05	
Hedge Fund - Macro	5.62	5.33	5.06	7.90	
US Cash	-2.50 ³	1.77	1.76	1.20	
Assumed Inflation - Mean			2.40 %	1.65 %	

¹ Based on the OIC Statement of Investment Objectives and Policy Framework for the Oregon Public

Employees Retirement Fund, including revisions adopted at the OIC meeting on June 2, 2021.

² The arithmetic mean is a component that goes into calculating the geometric mean. Expected rates of return are presented using the geometric mean, which the Board uses in setting the discount rate.

³ Negative allocation to cash represents levered exposure from allocation to Risk Parity strategy.

Discount Rate – The discount rate used to measure the total pension liability was 6.90 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from the plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 6.9 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.9 percent) or 1-perentage-point higher (7.9 percent) than the current rate.

	Decrease (5.9%)	Rate (6.9%)	Increase (7.9%)
City's proportionate share of the net pension liability	\$ 48,132,165	\$ 24,510,198	\$ 4,747,185

Deferred Compensation Plan

A deferred compensation plan is available to employees wherein they may execute an individual agreement with the City for amounts earned by them to not be paid until a future date when certain circumstances are met. These circumstances are: termination by reason of death, disability, resignation, or retirement. Payment to the employee will be made over a period not to exceed 15 years. The deferred compensation plan is one which is authorized under IRC Section 457 and has been approved in its specifics by a private ruling from the Internal Revenue Service. The assets of the plan are held by the administrator for the sole benefit of the plan participants and are not considered assets or liabilities of the City.

OPSRP Individual Account Program (OPSRP IAP)

Plan Description:

Employees of the City are provided with pensions through OPERS. All the benefits of OPERS are established by the Oregon legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003. Chapter 238A created the Oregon Public Service Retirement Plan (OPSRP), which consists of the Defined Benefit Pension Program and the Individual Account Program (IAP). Membership includes public employees hired on or after August 29, 2003. PERS members retain their existing defined benefit plan accounts, but member contributions are deposited into the member's IAP account. OPSRP is part of OPERS, and is administered by the OPERS Board.

Pension Benefits:

Participants in OPERS defined benefit pension plans also participate in their defined contribution plan. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies.

Upon retirement, a member of the OPSRP IAP may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5-, 10-, 15, 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

Death Benefits:

Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

Contributions:

PERS has a mandatory retirement contribution from employees. However, the City pays six (6) percent of their covered payroll as a money-saving concession that was negotiated in collective bargaining agreements. The City did not make any optional contributions to member's IAP accounts for the year ended June 30, 2022.

E. Fund Balance Constraints

The specific purposes for each of the categories of the fund balance as of June 30, 2022, are as follows:

					N	lon Major	
Fund Balances:	Ge	neral Fund	S	treet Fund		Funds	Total
Nonspendable:							
Perpetual care	\$	-	\$	-	\$	930,895	\$ 930,895

Assigned for: N/A							
Unassigned:		18,277,388		-		-	18,277,388
Total fund balances:	\$	19,591,140	\$	5,535,941	\$	5,742,884	\$ 30,869,965

F. Service Concession Agreement

The City of Ashland contracts with Skinner Aviation to operate the City owned airport. Skinner Aviation has been the airport's Fixed Base Operator since 1993 and is responsible for all oversight of the airport facilities including radio control, fuel facility, aircraft maintenance, hangar rental collection, flight training and facility maintenance. They collect the income for the City and remit the City's revenue on a monthly basis. They keep 25% of the monthly revenue and receive a credit for Water and Garbage services. No upfront monies were exchanged by either party when the contract was executed, so thus there is not an asset or liability to recognize in the financial statements.

G. Tax Abatements

As of June 30, 2022, City of Ashland provides tax abatements through one significant program: Enterprise Zone.

Enterprise Zone (ORS 285C.175):

The Oregon Enterprise Zone program is a State of Oregon economic development program, that allows
for property tax exemptions for up to five years. In exchange for receiving property tax exemption,
participating firms are required to meet the program requirements set by state statute and the local
sponsor.

The Enterprise Zone program allows industrial firms that will be making a substantial new capital investment a waiver of 100% of the amount of real property taxes attributable to the new investment for a 5-year period after completion. Land or existing machinery or equipment is not tax exempt; therefore, there is no loss of current property tax levies to local taxing jurisdiction.

For the fiscal year ended June 30, 2022, City of Ashland abated property taxes under these program in FY 22 are zero.

H. Contingency

The City is involved in various claims and legal matters relating to its operations which have all been tended to and are either being adjusted by the City's liability carrier or are being defended by attorneys retained by the City's liability carrier. The status of these matters is uncertain at this time. Any potential loss is also uncertain.

I. Leases

The City is a lessor for noncancellable lease of office space with lease terms through 2047. For the year ending June 30, 2022, the City recognized \$529,488 in lease revenue released from the Deferred Inflows of Resources related to the office lease and \$529,488 in variable payments charged to the lessees included in Other Income on the statement of changes in net position. The City recognized interest revenue of \$0 for the year ending June 30, 2022. No inflows of resources were recognized in the year related to termination penalties or residual value guarantees during the fiscal year.

The future principal and interest lease receipts as of June 30, 2022 were as follows:

Year ending					
June 30,	F	rinicpal	Int	erest	Total
2023	\$	329,803	\$	-	\$ 329,803
2024		199,645		-	199,645
Total	\$	529,448	\$	-	\$ 529,448

The City is a lessee for noncancellable lease of office space and equipment with lease terms through 2025. There are no residual value guarantees included in the measurement of City's lease liability nor recognized as an expense for the year ended June 30, 2022. The City does not have any commitments that were incurred at the commencement of the leases. The City is subject to variable equipment usage payments that are expensed when incurred. \$68,410 was recognized as variable lease payments as lease expense on the statement of changes of net position. No termination penalties were incurred during the fiscal year.

	Balance June 30, 20	-	dditions Reclasses	Retirements and Reclasses	Balance June 30, 2022

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

The budgetary basis differs from GAAP when the City has interfund loan transactions. For the budgetary basis, it is considered another financing source; for GAAP it is purely a balance sheet transaction.

Notes to the Schedule Changes of Assumptions: There were a number of changes in the demographic and economic actuarial assumptions used in the previous year valuation report which are assumed to continue to be appropriate. Some of these assumption changes have significantly affected the liability of the plan but in an offsetting manner. Key items to note regarding actuarial assumptions include:

- Overall healthcare cost increases were higher than assumed in the prior valuation, resulting in an actuarial loss.
- The repeal of the healthcare reform excise tax on high-value benefit plans reduced the liability.
- Where applicable, demographic assumptions are based on the actuarial valuation assumptions of the Oregon PERS and OPSRP retirement plans. The latest Oregon PERS and OPSRP valuation report available is as of December 31, 2019. Many assumptions changed from the previous valuation including the rates of retirement, termination, disability, salary scale, and mortality.
- Retiree lapse rate of 8% to better reflect actual experience.

Changes in Actuarial Methods and Assumptions:

A summary of key changes implemented since the December 31, 2019 valuation are described briefly below. Additional detail and a comprehensive list of changes in methods and assumptions can be found in the 2018 Experience Study for the System, which was published in July 2019, and can be found at: https://www.oregon.gov/ pers/Documents/Exp_Study_2018.pdf. Discount rate decreased from 7.20% as of December 31, 2018 to 6.90% as of December 31, 2019.

Allocation of Liability for Service Segments:

For purposes of allocating Tier One/Tier Two member's actuarial accrued liability among multiple employers, the valuation uses a weighted average of the Money Match methodology and the Full Formula methodology used by PERS when the member retires. The weights are determined based on the prevalence of each formula among the current Tier One/Tier Two population. For the December 31, 2016 and December 31, 2017 valuations, the Money Match was weighted 15% for General Service members and 0% for Police & Fire members. For the December 31, 2018 and December 31, 2019 valuations, this weighting has been adjusted to 10% for General Service members and 0% for Police & Fire members and 0% for Police & Fire members, based on a projection of the proportion of the liability attributable to Money Match benefits at those valuation dates.

<u>Healthcare Cost Inflation</u>. The healthcare cost inflation for the maximum RHIPA subsidy was updated based on analysis performed by Milliman's healthcare actuaries. This analysis includes the consideration of the excise tax that will be introduced in 2022 by the Patient Protection and Affordable Care Act.

Changes in Demographic Assumptions:

<u>Healthy Annuitant Mortality Base Tables</u>. The healthy annuitant mortality base tables were updated to Pub-2010 generational Healthy Retiree mortality tables with group-specific job category and setback adjustments. Previously they were based on RP2014 generational Healthy Annuitant mortality tables with group-specific class and setback adjustments.

<u>Disabled Mortality Base Tables.</u> The disabled mortality base tables were updated to Pub-2010 generational Disabled Retiree mortality tables with group-specified job category and setback adjustments. Previously they were based on RP-2014 generational Disabled Retiree mortality tables.

AUDIT COMMENTS AND DISCLOSURES

Required by State Regulations

Oregon Administrative Rules 162-10-0000 through 162-10-0330, the Minimum Standards for Audits of Oregon Municipal Corporations, prescribed by the Secretary of State in cooperation with the Oregon State Board of Accountancy, enumerate the financial statements, schedules, comments, and disclosures required in audit reports. The required financial statements and schedules are set forth in preceding sections of this report. Required comments and disclosures related to the audit of such statements and schedules are set forth following.

Report of Independent Auditors Required by Oregon State Regulations

To the Mayor and City Council City of Ashland, Oregon

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Ashland, Oregon (the City) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated December 15, 2022.

Compliance

As part of obtaining reasonable assurance about whether the City's basic financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, including provisions of Oregon Revised Statutes (ORS) as specified in Oregon Administrative Rules (OAR) 162-010-0000 to 162-010-0330, of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to, the following:

- · Accounting records and internal control
- · Public fund deposits
- Indebtedness
- Budget
- Insurance and fidelity bonds
- Programs funded from outside sources
- Highway funds
- Investments
- Public contracts and purchasing

In connection with our testing, nothing came to our attention that caused us to believe the City was not in substantial compliance with certain provisions of laws, regulations, contracts, and grant agreements, including the provisions of ORS as specified in OAR 162-010-0000 through 162-010-0330 of the *Minimum Standards for Audits of Oregon Municipal Corporations*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of the City Council members and management of the City and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

GOVERNMENT AUDITING STANDARDS COMPLIANCE REPORTS

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Major and City Council City of Ashland, Oregon

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Ashland, Oregon (the City) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the City of Ashland, Oregon's basic financial statements, and have issued our report thereon dated December 15, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report of Independent Auditors on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

To the Mayor and City Council City of Ashland, Oregon

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the City of Ashland, Oregon's (the City)'s compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2022. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards,* and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in
 order to design audit procedures that are appropriate in the circumstances and to test and report
 on internal control over compliance in accordance with the Uniform Guidance, but not for the
 purpose of expressing an opinion on the effectiveness of the City's internal control over
 compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency in *internal control over compliance* is a deficiency, or a combination of deficience is a deficiency, or a combination of deficiency and that there is a reasonable possibility that material noncompliance with a type of compliance such that there is a reasonable possibility that material noncompliance with a type of compliance frequirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that weaknesses or significant deficiencies in internal control over compliance that we consider to be material control over compliance that weaknesses or significant deficiencies in internal control over compliance that weaknesses or significant deficiencies in internal control over compliance that weaknesses or significant deficiencies in internal control over compliance that weaknesses or significant deficiencies in internal control over compliance that weaknesses or significant deficiencies in internal control over compliance that weaknesses or significant deficiencies in internal control over compliance that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See notes to schedule of expenditures of federal awards.

City of Ashland, Oregon Notes to Schedule of Expenditures of Federal Awards Year Ended June 30, 2022

NOTE 1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes federal grant activity in programs of the federal government. The information in this schedule is presented in accordance with the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected promotion of the operations, it is not intended to and does not present the net position, changes in net position, or cash flows of the entity.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The entity has elected to use the ten percent de minimis indirect cost rate as allowed under Uniform Guidance when allowed.
