Agenda Item	Adoption of Revisions to Miscellaneous Fees & Charges for FY 2023 and Repealing Resolution 2022-13	
From	Sabrina Cotta	Deputy City Manager
Contact	sabrina.cotta@ashland.or.us	

SUMMARY

This resolution is to consider revisions to previously adopted updates contained in the City’s Miscellaneous Fees and Charges document. The majority of the Fees remain unchanged, with some new fees and others increasing by an inflationary adjustment.

POLICIES, PLANS & GOALS SUPPORTED

N/A

PREVIOUS COUNCIL ACTION

Adoption of the last Miscellaneous Fees & Charges was on June 14, 2022, per Resolution 2022-13

BACKGROUND AND ADDITIONAL INFORMATION

The City charges for a variety of services provided to the public. The miscellaneous fees and charges are updated and reviewed on an annual basis with the intent of providing an efficient way for Council to review and approve fees and charges as a whole. The attached document reflects the changes that had been incorrectly updated in the previous revision. More complicated and specific rates, fees and charges such as Utility rates and Systems Development Charges are not included in the miscellaneous fees and charges and are handled in separate Council actions. The adoption of the current fees and charges does not limit the Council’s ability to create, or adjust, fees during the next year.

In addition to efficiency for Council in review and approval of fees and charges, the proposed fee booklet provides the public with one document that includes all miscellaneous fees and charges of the different Departments of the City.

Attached is the draft booklet and draft resolution to establish or update the included fees effective January 1, 2023. In some cases, there are references to prior resolutions that are not being repealed and the associated charges are presented for information purposes.

All modifications or additions to the prior approved fees booklet are presented in red. If an entry is not bolded in red the existing amount or methodology used for calculation remains unchanged.

FISCAL IMPACTS

Regular review and updating of fees and charges provides Departments with the ability to maintain the intended ratio of cost recovery for the services each Department provides to their customers and the public. This also ensures that the revenues projected in the biennial budget are achieved to appropriately offset the approved and appropriated expenditures of each Department.

STAFF RECOMMENDATION

Staff recommends approval of the updated Miscellaneous Fee and Charges.

ACTIONS, OPTIONS & POTENTIAL MOTIONS

I move approval of the resolution titled, “A Resolution Adopting a Miscellaneous Fees & Charges Document and Repealing Prior Fee Resolution 2022-13.”

Building Division Permit Fees for Commercial and Residential

In accordance with OAR 918-050-0100: “Residential construction permit fees shall be calculated using the following methodologies. (c) Effective January 1, 2009, a structural permit fee for new construction and additions shall be calculated using the ICC Building Valuation Data Table current April 1 of each year, multiplied by the square footage of the dwelling unit to determine the valuation. The valuation shall then be applied to the municipality’s fee schedule to determine the permit fee. The plan review fee shall be based on a pre-determined percentage of the permit fee set by the municipality. (A) The square footage of a dwelling, addition, or garage shall be determined from outside exterior wall to outside exterior wall for each level. (B) The square footage of a carport, covered porch, or deck shall be calculated separately at fifty percent of the value of a private garage from the ICC Building Valuation Data Table current as of April 1. (C) Permit fees for an alteration or repair shall be calculated based on the fair market value as determined by the Building Official, and then applying the valuation to the municipality’s fee schedule.

Commercial construction permit fees shall be calculated using the following methodologies. (c) A structural permit fee shall be calculated by applying the valuation to the municipality’s fee schedule with a set minimum fee. Valuation shall be the greater of either. (A) The valuation based on the ICC Building Valuation Table current as of April 1 of each year, using the occupancy and construction type as determined by the Building Official, multiplied by the square footage of the structure; or (B) The value as stated by the applicant and approved by the building official. (C) When the construction or occupancy does not fit the ICC Building Valuation Data Table, the valuation shall be determined by the Building Official with input from the applicant.”
