## **SUMMARY**

Senate Bill 1537 in Oregon streamlines housing development by introducing land use amendments and offering cities expanded opportunities for urban growth boundary (UGB) expansion, aiming to facilitate the creation of affordable housing. The bill enhances support for infrastructure development and enforces housing laws to address the state's housing shortage efficiently.

## **POLICIES, PLANS & GOALS SUPPORTED**

Ashland Comprehensive Plan

- Environmental Resources Element (Ch IV):
  - Goal: To preserve forest areas within and around the city for their visual, environmental, wildlife habitat, and water quality values.
- Housing Element (Ch. VI):
  - Goal: Support the creation and preservation of housing that is affordable to low and moderate income households and that is commensurate with the incomes of Ashland's workforce.
  - Goal: Encourage the development of housing in ways that protect the natural environment and encourage development patterns that reduce the effects of climate change.
- Urbanization Element (Ch XII):
  - Goal It is the City of Ashland's goal to maintain a compact urban form and to include and adequate supply of vacant land in the City so as not to hinder natural market forces within the City, and to ensure and orderly and sequential development of land in the City limits.
- Regional Plan Element (Ch XIV):
  - Cities that choose to expand their UGBs into land not designated as a URA will be required to go through the Regional Plan minor or major amendment process prior to or concurrent with any other process.
  - Urban Reserve Management Agreement- Should the City of Ashland at some point in the future opt to identify urban reserves through a minor amendment process, the adoption of an Urban Reserve Management Agreement (URMA) between the City and Jackson County will be required. All development within any future Urban Reserve Areas identified for the City of Ashland would be regulated in accordance with the URMA, and Appendix C of this element is reserved for the approved URMA for Ashland's future Urban Reserve Areas when they are identified.

## **BACKGROUND AND ADDITIONAL INFORMATION**

Senate Bill 1537 in Oregon, as requested by Governor Tina Kotek and approved during the 2024 Regular Session is intended to be a comprehensive approach to housing policy reform, aimed at streamlining the development process, supporting affordable housing projects, and enforcing housing laws more effectively. The legislation addresses these objectives through the following:

- Establishment of a new Housing Accountability and Production Office to oversee these initiatives. This office is mandated to work in conjunction with the Department of Land Conservation and Development and the Department of Consumer and Business Services. Its key responsibilities include assisting local governments and housing developers with housing laws and enforcing these laws where necessary.
- Enhances funding mechanisms for housing infrastructure and development. The Housing Infrastructure Support Fund provides local governments with support for developing infrastructure that facilitates residential development.
- Expands eligibility for awarding of attorney fees to an applicant whose housing development is appealed to the Land Use Board of Appeals after approval by the local government, in the event the board affirms the decision. The Act clarifies that “attorney fees” also include the cost of processing an application. Provisions apply to decisions for which a notice of intent to appeal is filed on or after January 1, 2025.
- Allows a Land Use application to be reviewed under the standards and criteria in place at the time the application was submitted [current law], or the applicant can request the application be subject to the standards that are operative at the time of the request.
- Mandates more efficient local government processes for approving housing projects when adjustments are requested by developers.
- Provides a streamlined method of urban growth boundary expansions.

The bill also encourages the development of affordable and moderate-income housing by authorizing cities and counties to offer grants to developers for such projects. A revolving loan program is to be developed by the Housing and Community Services Department, offering interest-free loans to cities and counties for funding these grants.

The bill was passed with bipartisan support in both the Senate and the House, indicating a significant step towards addressing Oregon’s housing shortage. Provisions for biennial reporting on its progress and effectiveness is scheduled to become operative on July 1, 2025.

## **Land Use Regulations**

**Goal post rule.** The “goal post rule” in Oregon land use planning refers to the principle that an application for a permit, limited land use decision, or zone change should be reviewed and decided based on the standards and criteria that were applicable at the time the application was first submitted. This rule is outlined in ORS 227.178(3)(a), which ensures that if an application was complete upon first submission, or if the requested additional information was provided within 180 days of the first submission, then the decision to approve or deny should be based on the regulations in effect at the time of the initial submission.

## Council Study Session

Under the amended language in SB1537 an applicant can request that their application be subject to the standards that are operative at the time of the request. This change relates to the Grandview Terrace annexation application recently processed in Ashland which was appealed to the Land Use Board of Appeals (LUBA). In that case the appellant argued that the City erred in exempting the project from on-street parking requirements that were in place on the date the application was filed, despite parking requirements having been eliminated by State Climate Friendly and Equitable Communities rules which were signed into law after the date of submission and in effect at the time of final decision. This assignment of error was remanded by LUBA to the City of Ashland for further findings, however the applicant withdrew the application and thus it was never adjudicated by the appeals court.

Due to this state law change, an applicant can now request any newly adopted standards or criteria favorable to the applicant be applied in the review of their application, and the city cannot require the applicant to pay a new application fee to submit a new identical application.

### **Urban Growth Boundary Expansions (Sections 48-60)**

The approved bill allows cities to bring in either 100 acres for cities with a population greater than 25,000 or no more than 50 acres for cities with fewer than 25,000 residents. Ashland has a population of 21,457 according to Portland State University's Population Research Center and thus would be eligible for a one-time expansion of the Urban Growth Boundary (UGB) of up to 50 acres. Despite this potential allowance, there are questions about which cities might take advantage of this provision, given the stringent qualifications and concerns about preserving Oregon's land-use laws, which have historically protected the state's natural resources and limited sprawl.

Under Senate Bill 1537, cities can expand their UGBs if the area meets specific criteria, including the proximity to the existing UGB, designation of the land as an urban reserve area, or to include non-resource lands. Under the current legal framework, the City of Ashland faces unique challenges in pursuing urban growth boundary (UGB) expansions due to its lack of designated Urban Reserve Areas (URAs). This limitation is particularly evident in the case of properties adjacent to Ashland, such as those north of East Main Street, which are zoned as Exclusive Farm Use (EFU) resource lands. Given these zoning classifications, these properties do not qualify for UGB expansion under existing statutes, representing a significant barrier to the city's efforts to address its housing needs through spatial expansion.

To navigate these constraints, a proactive strategy involving collaboration with property owners interested in development could prove pivotal. Specifically, if a property owner adjacent to the current city limits is considering the use of their land for a housing development, they could prepare a conceptual plan for such a project of less than 50 acres. This plan would serve as part of a proposal for the city to request a minor amendment to the Bear Creek Regional Plan, aiming to newly designate a corresponding Urban Reserve Area for Ashland. This approach not only aligns with strategic planning principles but may open a pathway for Ashland to expand its UGB in a manner

## Council Study Session

that accommodates future housing projects. The procedural nuances of securing an URA designation through Jackson County, including detailed steps and necessary considerations, are elaborated in the attachment accompanying this communication.

Were Ashland to process a request for a UGB expansion following designation of Urban Reserve Areas, other applicable criteria outlined in SB1537 in Section 50 for a one-time addition to the UGB would be met including:

- not having expanded its UGB in the last 20 years,
- lacking a single ownership tract of land over 20 acres within its UGB,
- having a higher percentage of extremely cost-burdened households compared to the state average,
- having greater than 25% of the rental households as severely rent-burdened

Projects developed within such expanded UGB boundaries will be required to offer 30% of residential units under affordability restrictions for at least 60 years. SB1537 further establishes that a city could perform a land exchange in lieu of a UGB amendment, in which case the residential site being added to the UGB replaces a residential site roughly equivalent in size that is being removed from the UGB.

### **Housing Land Use Adjustments (Sections 37-43)**

Senate Bill 1537 mandates that jurisdictions approve requested "adjustments", or deviations from existing land use regulations, aimed at facilitating the development of housing projects. This legislative move is designed to ease regulatory barriers, encouraging the growth of housing inventory to address affordability and availability challenges in the state.

A development application can apply for an adjustment under Senate Bill 1537 if the development is for residential use, within urban growth boundaries and annexed into the city, has a residential density of at least 6 units per acre (55(3)(a)(C)), creates new housing units, aims to increase affordability or accessibility, and does not compromise on safety or environmental standards. The application must demonstrate how the adjustments will benefit a housing development that achieves at least one of the following objectives:

- To make the housing development possible by reducing costs or avoiding delays.
- To lower the sale or rental cost of the housing units.
- To increase the total number of housing units.
- To ensure the housing units are affordable for moderate-income households for at least 30 years.
- To ensure at least 20% of units are affordable for low-income households for at least 60 years.
- To add accessibility features that would otherwise be too costly or delayed.
- To support housing affordability through zero equity, limited equity, or shared equity models for a period of 90 years.

These provisions allow for up to 10 distinct "adjustments" to housing development standards under specified conditions, enhancing housing development flexibility.

# Council Study Session

Local governments are mandated by Senate Bill 1537 to allow specific adjustments in housing development standards to encourage more flexible and efficient housing development. These adjustments cover various areas, including:

- Up to 10% reduction in minimum side or rear yard setbacks
- Up to 10% reduction in maximum lot coverage.
- Up to 25% reduction in required common areas, open spaces, or landscaping areas.
- Building height can be increased by either one additional story or up to a 20% height increase, whichever is greater.
- Adjustments to facade materials and window areas are not quantified by specific percentages but are intended to offer flexibility within the design standards to accommodate a variety of architectural styles and construction methods, enhancing the feasibility and affordability of residential developments.
- Modifications to parking requirements, minimum and maximum lot sizes to promote additional dwelling units without compromising minimum density. This adjustment is less applicable in Ashland as we have removed all parking minimums from our land use code.

These “adjustments” do not permit an applicant to request uses which are otherwise prohibited within a specific zoning designation, nor are deviations permitted that relate to building and fire safety, air quality, stormwater requirements, and environmental protections. The law specifies that decisions on adjustment applications are limited land use decisions only the applicant may appeal. These provisions have an operational date of January 1, 2025.

**Limited Land Use Decisions (Sections 44 – 47)** Includes approval or denial of applications for replats, property line adjustments, and extension alterations or expansions of a nonconforming use in the definition of “limited land use decision.” Directs cities to only apply procedures specified in ORS 197.195 to limited land use decisions. Places operative date on these provisions of January 1, 2025; repeals them January 2, 2032.

## **FISCAL IMPACTS**

Expanding a city's urban growth boundaries (UGB) introduces financial unpredictability, primarily due to indeterminate future infrastructure costs. The initial investment for planning and constructing essential infrastructure can be substantial. Although widening the UGB has the potential to boost tax revenues, it concurrently incurs ongoing expenses for the upkeep of new infrastructure, including roads, utilities, and services. Forecasting these financial implications is challenging, given the variability in economic conditions, demographic shifts, and fluctuations in housing demand.

## **DISCUSSION QUESTIONS**

Does the City Council have any questions or comments regarding the local implications of the passage of Senate Bill 1537 and potential for an expedited Urban Growth Boundary expansion?

# Council Study Session

## **SUGGESTED NEXT STEPS**

The City could take several strategic steps to address housing affordability in light of SB 1537. In evaluating land use code language to be developed in relation to Climate Friendly areas, the City should contemplate the impact of the Housing Land Use Adjustment provisions in SB1537.

In relation to a UGB expansion request It is crucial to assess whether property owners adjacent to the Urban Growth Boundary (UGB) are contemplating housing development proposals that comply with SB 1537's affordability criteria. If a property owner were interested in preparing a general concept plan, the City could initiate discussions with Jackson County to comprehensively understand the Urban Reserve Area Designation Process and the intricacies of the Greater Bear Creek Regional Plan Minor Amendment process, especially in the context of the newly passed SB 1537.

(2) Produce a report based on a study by the office of state and local timelines and standards related to public works and building permit application review and develop recommendations for changes to reduce complexity, delay or costs that inhibit housing production, including an evaluation of their effect on the feasibility of varying housing types and affordability levels.

(3) Produce a report summarizing state agency plans, policies and programs related to reducing or eliminating regulatory barriers to the production of housing. The report must also include recommendations on how state agencies may prioritize resources and programs to increase housing production.

(4) Approval or denial of a limited land use decision shall be based upon and accompanied by a brief statement that explains the criteria and standards considered relevant to the decision, states the facts relied upon in rendering the decision and explains the justification for the decision based on the criteria, standards and facts set forth.

(5) A local government may provide for a hearing before the local government on appeal of a limited land use decision under this section. The hearing may be limited to the record developed pursuant to the initial hearing under subsection (3) of this section or may allow for the introduction

of additional testimony or evidence. A hearing on appeal that allows the introduction of additional testimony or evidence shall comply with the requirements of ORS 197.797. Written notice of the decision rendered on appeal shall be given to all parties who appeared, either orally or in writing, before the hearing. The notice of decision shall include an explanation of the rights of each party to appeal the decision.

(6) A city shall apply the procedures in this section, and only the procedures in this section, to a limited land use decision, even if the city has not incorporated limited land use decisions into land use regulations, as required by ORS 197.646 (3), except that a limited land use decision that is made under land use standards that do not require interpretation or the exercise of policy or legal judgment may be made by city staff using a ministerial process.

**SECTION 45a.** Section 46 of this 2024 Act is added to and made a part of ORS chapter 197.

**SECTION 46. Applicability of limited land use decision to housing development.** (1) The Housing Accountability and Production Office may approve a hardship exemption or time extension to ORS 197.195 (6), during which time ORS 197.195 (6) does not apply to decisions by a local government.

(3) The office shall review exemption or time extension requests under the deadlines provided in section 39 (3) of this 2024 Act.

**SECTION 47. Sunset.** Section 46 of this 2024 Act is repealed on January 2, 2032.

(2) A county shall approve an amendment to an urban growth boundary made under this section that complies with sections 49 to 59 of this 2024 Act and shall cooperate with a city to facilitate the coordination of functions under ORS 195.020 to facilitate the city's annexation and the development of the site. The county's decision is not a land use decision.

(3) Notwithstanding ORS 197.626, an action by a local government under sections 49 to 59 of this 2024 Act is not a land use decision as defined in ORS 197.015.

**SECTION 51. Petition for additions of sites to Metro urban growth boundary.** (1) A city within Metro may petition Metro to add a site within the Metro urban growth boundary if the site:

(a) Satisfies the requirements of section 50 (1) of this 2024 Act; and

(A) Notify the city of deficiencies in the petition, specifying sufficient detail to allow the city to remedy any deficiency in a subsequent resubmittal; and

(B) Allow the city to amend its conceptual plan and resubmit it as a petition to Metro under this section.

(c) If Metro determines that a petition does comply, notwithstanding any other provision of ORS chapter 197A, Metro shall adopt amendments to its urban growth boundary to include the site in the petition, unless the amendment would result in more than 300 total net residential acres added under this subsection.

(3) If the net residential acres included in petitions that Metro determines are in compliance on or before July 1, 2025, total less than 300 net residential acres, Metro shall adopt amendments to its urban growth boundary under subsection (2)(c) of this section:

(a) On or before November 1, 2025, for all petitions deemed compliant on or before July 1, 2025; or

(b) Within 120 days after a petition is deemed compliant after July 1, 2025, in the order in which the petitions are received.

(4) If the net residential acres included in petitions that Metro determines are in compliance on or before July 1, 2025, total 300 or more net residential acres, on or before January 1, 2027, Metro shall adopt amendments to its urban growth boundary under subsection (2)(c) of this section to include the sites in those petitions that Metro determines will:

(2) The city has demonstrated a need for affordable housing, based on:

(a) Having a greater percentage of severely cost-burdened households than the average for this state based on the Comprehensive Housing Affordability Strategy data from the United States Department of Housing and Urban Development; or

(b) At least 25 percent of the renter households in the city being severely rent burdened as indicated under the most recent housing equity indicator data under ORS 456.602 (2)(g).

**SECTION 53. City solicitation of site applications.** (1) Before a city may select a site for inclusion within the city's or Metro's urban growth boundary under sections 49 to 59 of this 2024 Act, a city must provide public notice that includes:

(a) "Affordable units" means residential units described in subsection (3)(f)(A) or (4) of this section.

(b) "Market rate units" means residential units other than affordable units.

(2) Before adopting an urban growth boundary amendment under section 50 of this 2024 Act or petitioning Metro under section 51 of this 2024 Act, for a site larger than 15 net residential acres, a city shall adopt a binding conceptual plan as an amendment to its comprehensive plan.

(3) The conceptual plan must:

- (d) Land acquisition and predevelopment costs.

**SECTION 56. Alternative for small additions.** (1) A city that intends to add 15 net residential acres or less is not required to adopt a conceptual plan under section 55 of this 2024 Act if the city has entered into:

(a) Enforceable and recordable agreements with each landowner of a property within the site to ensure that the site will comply with the affordability requirements described in section 55 (3)(f) of this 2024 Act; and

(2) This section does not apply to a city within Metro.

**SECTION 57. Department approval of site additions.** (1) Within 21 days after the adoption of an amendment to an urban growth boundary or the adoption or amendment of a conceptual plan under sections 49 to 59 of this 2024 Act, and the approval by a county if required

under section 50 (2) of this 2024 Act, the conceptual plan or amendment must be submitted to the Department of Land Conservation and Development for review. The submission must be made by:

(B) If the submittal does not substantially comply with the provisions of sections 49 to 59 of this 2024 Act, issue an order remanding the submittal to the city or to Metro with a specific determination of deficiencies in the submittal and with sufficient detail to identify a specific remedy for any deficiency in a subsequent resubmittal.

(3) If a conceptual plan is remanded to Metro under subsection (2)(b) of this section:

(a) The department shall notify the city; and

(b) The city may amend its conceptual plan and resubmit a petition to Metro under section 51 of this 2024 Act.

(4) Judicial review of the department's order:

(a) Must be as a review of orders other than a contested case under ORS 183.484; and

(b) May be initiated only by the city or an owner of a proposed site.

(5) Following the approval of a submittal under this section, a local government must include the added lands in any future inventory of buildable lands or determination of housing capacity under ORS 197A.270, 197A.280, 197A.335 or 197A.350.

**SECTION 58. Alternative urban growth boundary land exchange.** (1) In lieu of amending its urban growth boundary under any other process provided by sections 49 to 59 of this 2024 Act, Metro or a city outside of Metro may amend its urban growth boundary to add one or more sites described in section 51 (1)(a) and (b) of this 2024 Act to the urban growth boundary and to remove one or more tracts of land from the urban growth boundary as provided in this section.

(2) The acreage of the added site and removed lands must be roughly equivalent.

(3) The removed lands must have been zoned for residential uses.

(4) The added site must be zoned for residential uses at the same or greater density than the removed lands.

(5)(a) Except as provided in paragraph (b) of this subsection, land may be removed from an urban growth boundary under this section without landowner consent.

(b) A landowner may not appeal the removal of the landowner's land from an urban growth boundary under this section unless the landowner agrees to enter into a recorded agreement with Metro or the city in which the landowner would consent to annexation and development of the land within 20 years if the land remains in the urban growth boundary.

(6) Review of an exchange of lands made under this section may only be made by:

(a) For cities outside of Metro, the county as provided in section 50 (2) of this 2024 Act and by the Department of Land Conservation and Development, subject to judicial review, as provided in section 57 of this 2024 Act; or

(b) For Metro, the Department of Land Conservation and Development, subject to judicial review, as provided in section 57 of this 2024 Act.

(7) Sections 50 (1)(d) to (g), 52, 53, 54, 55 and 56 of this 2024 Act do not apply to a site addition made under this section.

report describing the status of development within the included area to the Department of Land Conservation and Development every two years until:

- (1) January 2, 2033; or
- (2) The city determines that development consistent with the acknowledged conceptual plan is deemed complete.

**SECTION 60. Sunset.** Sections 49 to 59 of this 2024 Act are repealed on January 2, 2033.

#### CONFORMING AMENDMENTS

**SECTION 64.** ORS 197.335, as amended by section 17, chapter 13, Oregon Laws 2023, is amended to read:

197.335. (1) [*An order issued under ORS 197.328 and the copy of the order mailed*] **The Land Conservation and Development Commission shall mail a copy of an enforcement order** to the local government, state agency or special district. **An order** must set forth:

(a) The nature of the noncompliance, including, but not limited to, the contents of the comprehensive plan or land use regulation, if any, of a local government that do not comply with the goals or the contents of a plan, program or regulation affecting land use adopted by a state agency or special district that do not comply with the goals. In the case of a pattern or practice of decision-making, the order must specify the decision-making that constitutes the pattern or practice, including specific provisions the [*Land Conservation and Development*] commission believes are being misapplied.

(b) The specific lands, if any, within a local government for which the existing plan or land use regulation, if any, does not comply with the goals.

(c) The corrective action decided upon by the commission, including the specific requirements, with which the local government, state agency or special district must comply. In the case of a pattern or practice of decision-making, the commission may require revisions to the comprehensive plan, land use regulations or local procedures which the commission believes are necessary to correct the pattern or practice. Notwithstanding the provisions of this section, except as provided in subsection (3)(c) of this section, an enforcement order does not affect:

(A) Land use applications filed with a local government prior to the date of adoption of the enforcement order unless specifically identified by the order;

(B) Land use approvals issued by a local government prior to the date of adoption of the enforcement order; or

(C) The time limit for exercising land use approvals issued by a local government prior to the date of adoption of the enforcement order.

(2) Judicial review of a final order of the commission is governed by the provisions of ORS chapter 183 applicable to contested cases except as otherwise stated in this section. The commission's final order must include a clear statement of findings which set forth the basis for the order. Where a petition to review the order has been filed in the Court of Appeals, the commission shall transmit to the court the entire administrative record of the proceeding under review. Notwithstanding ORS 183.482 (3) relating to a stay of enforcement of an agency order, an appellate court, before it may stay an order of the commission, shall give due consideration to the public interest in the continued enforcement of the commission's order and may consider testimony or affidavits thereon. Upon review, an appellate court may affirm, reverse, modify or remand the order. The court shall reverse, modify or remand the order only if it finds:

(a) The order to be unlawful in substance or procedure, but an error in procedure is not cause for reversal, modification or remand unless the court finds that substantial rights of any party were prejudiced thereby;

(b) The order to be unconstitutional;

(c) The order is invalid because it exceeds the statutory authority of the agency; or

(d) The order is not supported by substantial evidence in the whole record.

(3)(a) If the commission finds that in the interim period during which a local government, state agency or special district would be bringing itself into compliance with the commission's order [under ORS 197.320 or subsection (2) of this section] it would be contrary to the public interest in the conservation or sound development of land to allow the continuation of some or all categories of land use decisions or limited land use decisions, it shall, as part of its order, limit, prohibit or require the approval by the local government of applications for subdivisions, partitions, building permits, limited land use decisions or land use decisions until the plan, land use regulation or subsequent land use decisions and limited land use decisions are brought into compliance. The commission may issue an order that requires review of local decisions by a hearings officer or the Department of Land Conservation and Development before the local decision becomes final.

(b) Any requirement under this subsection may be imposed only if the commission finds that the activity, if continued, aggravates the goal, comprehensive plan or land use regulation violation and that the requirement is necessary to correct the violation.

(c) The limitations on enforcement orders under subsection (1)(c)(B) of this section do not affect the commission's authority to limit, prohibit or require application of specified criteria to subsequent land use decisions involving land use approvals issued by a local government prior to the date of adoption of the enforcement order.

(4) As part of its order [under ORS 197.320 or subsection (2) of this section], the commission may withhold grant funds from the local government to which the order is directed. As part of an order issued under this section, the commission may notify the officer responsible for disbursing state-shared revenues to withhold that portion of state-shared revenues to which the local government is entitled under ORS 221.770, 323.455, 366.762 and 366.800 and ORS chapter 471 which represents the amount of state planning grant moneys previously provided the local government by the commission. The officer responsible for disbursing state-shared revenues shall withhold state-shared revenues as outlined in this section and shall release funds to the local government or department when notified to so do by the commission or its designee. The commission may retain a portion of the withheld revenues to cover costs of providing services incurred under the order, including use of a hearings officer or staff resources to monitor land use decisions and limited land use decisions or conduct hearings.
