

# IF I WERE MAYOR...

# REDUCE WILDFIRE RISK

## Reduce Wildfire Risk

It's very important to do our best to prevent a big wildfire. If I were mayor, I would support removing dead trees in town and in our forests. I would have people use safer landscaping and I would teach kids about the work in the watershed and why there is a lot of smoke.

## Less cars, more bikes

I would find ways to make bike lanes on more streets, off street bike paths and more bike parking. I would also try to make cars slow down to keep kids safe.

## Healthy Growth

For every new big development, I would require a community garden for the people who live there. Then, families would be able to grow and eat fresh food.

Better Together

HEALTHY GROWTH

LESS CARS, MORE BIKES
